

TRANSPORTATION

Edmonton is our home.

No matter who forms the next provincial government, **Edmonton is essential to Alberta's future**. We need to work together with the Government of Alberta to build a thriving, safe, sustainable and welcoming city for every Edmontonian.

That's why, this provincial election, we need to **Ask About Edmonton**.

Asking about Edmonton is a great way to start a positive conversation about the kind of city **we want to live in**, and for your voice to be heard in the 2023 Alberta General Election.

We all benefit when our roads, buses and LRT networks get Edmontonians where they need to go.

This provincial election, ask about transportation.

Did you know?

- As of January 2023, Edmonton bus ridership reached 100% of pre-pandemic levels and LRT ridership reached between 60 and 70% of pre-pandemic levels.
- In January 2023, Edmonton buses averaged 1.2 million rides per week.
- In 2022, Edmonton's LRT drove 2.2 million kilometres and busses drove 44.7 million. That means, combined, ETS LRT and buses completed the equivalent of 1,711 trips around the world in 2022.
- The City estimates one hydrogen bus can reduce emissions by over 3,600 tonnes of carbon dioxide, which is an 80 to 85% reduction in greenhouse gas emissions over a period of 15 years compared to a diesel bus.

Conversation starters:

- What will your party do to increase access to safe and affordable transportation in Edmonton?
- Edmonton is investing in hydrogen buses to dramatically reduce emissions. How will your party support greener transit options?
- To combat climate change, Edmonton needs to be greener as we grow. Do you and your party support the expansion of public transportation options?
