

Do you have traffic safety concerns in your neighbourhood? We want to hear from you!

A Vision Zero Street Lab is being considered for Callingwood North! The City would like to hear about your lived experience to help determine if a Vision Zero Street Lab would improve road safety and livability in your neighbourhood.

What is a Vision Zero Street Lab?

Vision Zero Street Labs are a great way to work with the City to bring traffic safety improvements to your neighbourhood using adaptable measures. Each Street Lab is tailored to the unique needs of the neighbourhood to creatively address community problems such as speeding, shortcutting and other unsafe driving behaviours.

Engagement Opportunities

To register for the engagement opportunities **October 8 to October 29**, scan this QR code with your smartphone camera or visit edmonton.ca/StreetLabs

In-Person Engagement: October 22, 2024, 5:30 pm - 7:30 pm at the Lois Hole Public Library, 17650 69 Ave NW, Edmonton, AB T5T 3X9

Meet with City staff to learn about Street Labs, ask questions and discuss accessibility, mobility and street safety.

Interactive Online Map: October 8 to 21

Identify locations of interest for traffic safety concerns.

Online Survey: October 8 to 29

Share your feedback through the online survey.
