

Preparing for Construction Engagement Summary

Malmo Plains Neighbourhood Renewal

ADVISE

Online Engagement

In February 2021, we hosted two online engagement sessions to prepare Malmo Plains Neighbourhood residents for what construction will look like in their neighbourhood. We answered questions and walked through the Local Improvement Process.

The project team shared the Neighbourhood Renewal process and how the final designs were created. Information about how to prepare for construction and the Local Improvement Process were presented during the online information session. Participants submitted questions at registration and during the event. The project team answered questions related to construction, the Local Improvement process and the costs associated with these improvements.

Paper copies of the information were also available upon request.

Live Question and Answer

Participants were able to ask the project team questions about the design, construction and the local improvement process.

February 6 event: 28 attendees, 20 questions answered and 2 comments

February 9 event: 32 attendees and 31 questions answered

Participants were sent a follow-up email thanking them for their attendance, given a link to review the video recording and a link to an event evaluation to share their experience of the online engagement event.

If you have questions or would like to watch the presentations, the February 9 event video is posted on the project website: edmonton.ca/BuildingMalmoPlains

Thank-you for engaging virtually.
