

STARTER ACTIONS

Taking the first step can be hard. Simply learning and building connections can be a valuable place to start and help you get more comfortable.

These action cards will help you decide where to start if you don't know your neighbours or are new to climate or community-related work.

FOR CLIMATE**

Edmonton

STARTER ACTION CARDS:

- S1** | Get to Know Your Neighbours
- S2** | Learn about Climate Change
- S3** | Become a Climate Change Advocate
- S4** | Explore Local Assets

Get to Know Your Neighbours

WHY TAKE ACTION?

Good relationships with neighbours can create feelings of safety and comfort. They can also increase social well-being and lead to long-lasting friendships. Knowing your neighbours can help you recover from local emergencies together.

LEVEL:

Mid Effort

TAGS:

Low Cost

Family
Friendly

SEASON:

2024

WHAT CAN YOU DO?

Connect with your neighbours by leaving a note, stopping by to chat or hosting a gathering.

Get to know the skills and needs in your neighbourhood. Consider setting up a buddy system to share information and check in on each other. Match people with specific needs to those who can offer the best support.

Use conversation starter tips to introduce yourself and start talking about Neighbouring for Climate.

Learn About Climate Change

WHY TAKE ACTION?

Our climate is already changing locally and globally. Learning about ways to reduce the impacts and adapt to a changing climate is the first step towards action.

LEVEL:

1 Low Effort

TAGS:

 Low Cost

 Family Friendly

SEASON:

2024

WHAT CAN YOU DO?

Learn more about climate change, its causes, and how it will impact Edmonton. Research actions to reduce your impact and adapt to projected climate changes. 

Feeling a sense of loss when learning about environmental challenges or climate change is completely normal. Learn more about this experience, known as “eco grief.”

Explore Local Assets

WHY TAKE ACTION?

Every community is unique. To take action effectively, it is important to know what conditions exist and what assets you and your neighbours have available.

LEVEL:

Mid Effort

TAGS:

Family
Friendly

SEASON:

2024

WHAT CAN YOU DO?

Conduct a local asset inventory with your neighbours to identify the needs and opportunities in your area. Explore potential hazards and supports that would help your neighbours. Look at local resources your neighbours can share with each with each other, such as skills, tools and space.
