

**My deck is over 1.8 metre in height so, here are my site coverage calculations:**

Lot area	15.0 m x 40.0 m = 600 m sq.
House and deck area	10.0 m x 10.0 m = 100 m sq. 7.0 m x 4.0 m = 28 m sq Subtotal: 128 m sq.
House and deck coverage	100 m sq ÷ 600 m sq = 12 % 28 m sq ÷ 600 m sq = 4.6 % Subtotal: 16.6%
Garage area	6.0 m x 6.0 m = 36 m sq.
Garage coverage	36 m sq ÷ 600 m sq = 6%
Total proposed site coverage	16.6% + 6% = 22.6%

Metres or feet/inches are accepted. Please use units consistently.

Setback: Distance between structure and property line.

**Site Plan Checklist:**

- Property address
- Corresponding streets and avenues
- North arrow

**Property Measurements:**

- Front property line
- Rear property line
- Left side property line
- Right Side property line

**Existing and Proposed Structure Measurements**

- width
- length
- height (proposed structure only)

**Existing and Proposed Structure Setbacks:**

- Left side setback
- Right side setback
- Rear setback
- Front setback
- Distance between proposed and existing structures

**If deck height is 1.8 metres or greater:**

- Provide site coverage calculations as shown in the sample table.
