

# Building Spruce Avenue

Edmonton

AUGUST 19, 2020 FILE: 20-1500-02

## SPRUCE AVENUE NEIGHBOURHOOD RENEWAL

As part of the 2020 Neighbourhood Renewal Program, The City of Edmonton - Building Great Neighbourhoods, will be coordinating construction in the Spruce Avenue neighbourhood.

### COVID-19 IMPACTS

While the COVID-19 pandemic has impacted nearly every aspect of daily life, it hasn't changed the fact that Edmonton is still the thriving city we love. We are continuing to build and better our city because robust and healthy infrastructure is critical to a safe and healthy Edmonton.

We are closely following the most recent guidelines and recommendations set by the Government of Alberta and Alberta Health. We are taking extra steps to ensure that the places where we continue to work and build are safe, sanitary, and provide adequate space for workers and the public to maintain an appropriate physical distance.

### SCOPE OF WORK

**Construction started the week of August 23, 2020 in your neighbourhood.** Prior to the start of construction in front of your house, the Prime Contractor working for the City delivered a bulletin outlining the project details and the estimated start/finish dates along with their contact information should you wish to contact them with any questions you might have. **Please note: the duration of construction in front of your house could be up to 5 weeks (weather dependent).**

The construction work consists of the removal and replacement of public sidewalks, curbs and gutters, as well as construction and paving of the road. Full road reconstruction along 112 Avenue (from 105 St to 106 Street) is planned for September 1 to September 15. **Attached to this bulletin is a map of Spruce Avenue which identifies the work planned for 2020.**

### ACCESS

During construction, one lane of traffic in each direction will be maintained at all times. No parking will be permitted in signed areas. Cars parked in signed areas will be towed nearby. One point of access to businesses and alleys will be maintained, where possible, at all times. Emergency access will be maintained at all times. All residents are asked to access their homes through the alleys during construction. ***If you have special access requirements, such as DATS, please contact the Project Manager to coordinate access.***

**ROAD CLOSURES:** Toward the completion of each portion of the project, the roadway will be closed to traffic on selected days to facilitate road reconstruction and asphalt paving. A bulletin will be circulated to the affected homes and businesses 5 working days prior to this work.

# Building Spruce Avenue

## LANDSCAPING

As part of the construction process, some re-landscaping will be necessary. **Please mark all underground sprinkler systems to avoid damage during construction. Any sprinkler systems within the boulevard will not be replaced. Residents who wish to preserve special landscaping within 1 metre of the City sidewalk are advised that it must be removed prior to the expected construction start date.** The contractor is not required to remove, preserve or replace any landscaping within this area.

## Canada Post

During construction, Canada Post may choose to temporarily suspend mail delivery. If this happens, you should receive a notice of temporary suspension with information about which depot your mail is at, and how to claim it. If you are not receiving your mail but have not received a suspension notification, please call Canada Post customer service at 1-800-267-1177.
