

Draft Concept Designs Event Engagement Summary

Lorelei and Beaumaris Neighbourhood Renewal

Public Engagement Event

What We Did

We held a Draft Concept Designs Public Event on May 8, 2019 at Lorelei Elementary School from 5:30 to 8:00 pm.

At the event, we shared the vision and guiding principles, and draft concept designs for neighbourhood renewal in Lorelei and Beaumaris. We met with residents to **gather feedback on the benefits and tradeoffs of the concept designs** and to **determine which ones are the most important to them**. This feedback will be used to help us refine the concept designs over summer to develop more detailed preliminary designs.

The **draft concept designs** include:

- + Connections to Beaumaris Lake
- + Enhancements to Commercial Hubs
- + Connections to Beaumaris and Lorelei Park
- + 97 Street Shared Use Path
- + Missing Links

Please refer to the project webpage to view the concept designs.

A what we heard and what we did report with more information on public engagement activities and feedback will be available online in June 2019.

Over 95 Participants

Over 210 Ideas

Draft Concept Designs Event Engagement Summary

Lorelei and Beaumaris Neighbourhood Renewal

Vision and Guiding Principles

The vision and guiding principles were finalized based on the feedback from the February 2019 event. These will be used to help us to develop the best designs for your neighbourhood to better meet your needs.

The **vision statement** is:

Lorelei and Beaumaris are family-friendly neighbourhoods that welcome people of all ages and backgrounds. We are a safe and walkable community that is connected to key destinations like parks, schools and commercial areas. We are an active and vibrant community that enjoys nature and getting together with our neighbours.

The **guiding principles** are:

Celebrating nature and preserving trees and open spaces

Feeling safe and having well-lit spaces

Creating easy access to neighbourhood destinations

Creating places for the community to come together and gather

Making the roads safer for all users (people who walk, bike, drive)

Improving connectivity by having viable options to walk, bike and drive within and surrounding the neighbourhood
