

# Block Party and Play Street Traffic Control Set Up Instructions Neighbourhood Services, Citizen Services

Last updated May 2021

The City will provide temporary traffic control measures as well as a basic traffic plan in the lead up to the event.

A-frame signage and traffic cones will be provided this year to event organizers for traffic control. There is no cost for this basic service.

**Event organizers must be able to pick up and return A-frames and cones for their event.** They will also be responsible for storing and ensuring these materials are kept in good condition during the period they are in their possession.

**If during your event an emergency takes place, site volunteers will need to ensure traffic barricades are removed at all access points to allow emergency vehicles to enter.**

The organizer is responsible for setting up the traffic control materials before the event and removing all materials off the street at the conclusion of the event.

**A-frames and cones should be set up like this:**

**For Residential Streets (including roads and alleys):**

- A total of 2 x A-frame signs and 4 x Traffic Cones will be provided.
- Both ends of the residential street must be closed off.
- One A-frame ROAD CLOSED sign must be placed in the middle of the road and one traffic cone to each side of the A-frame sign as shown in the photo above at both ends of the street to be closed off.

**For Cul de Sacs:**

- A total of 1 x A-frame signs and 2 x Traffic Cones will be provided.
- The access to the Cul de Sac must be closed off.
- One A-frame ROAD CLOSED sign must be placed in the middle of the road and one traffic cone to each side of the A-frame sign as shown in the photo above.
