## The Flood of 1915 Virtual Exhibit Bibliography

This bibliography is designed to situate the records used in The Flood of 1915 virtual exhibit in their larger context. It shows where these disparate records come from by grouping them by creator rather than by subject.

Wherever possible, links to catalogue entries in our online catalogue have been included. We also have some further catalogue information in our reference room.

For an explanation of terms and acronyms, see our [Virtual Exhibit Glossary](#).
