

COVID-19 Mandatory Disclosure Data

Updated as of September 16, 2021

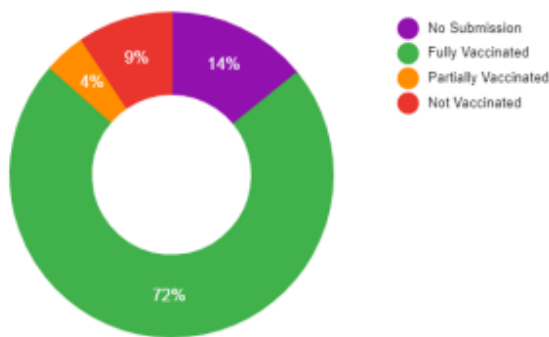

The City of Edmonton released the results from a vaccination disclosure collection to employees and unions on September 16, 2021. We thank all City of Edmonton employees who completed their disclosure form.

Some of the results of the vaccine disclosure were:

- 86 per cent of employees responded
- 72 per cent of employees indicated that they were fully vaccinated
- Four per cent of employees indicated that they were partially vaccinated

The vaccination disclosure data is one of the sources of information the Executive Leadership Team (ELT) is using to determine if additional steps are necessary to protect our employees, keep our facilities safe and operational and stop the spread of COVID-19.

The health and safety of employees and Edmontonians remain a top priority. As one of Alberta's largest employers, the City of Edmonton has a duty to support provincial efforts to reduce the spread of COVID-19 and bring an end to the pandemic. More information will be provided to employees and the public next week.
