

City of Edmonton
Highlands Neighbourhood Renewal – Building Great Neighbourhoods
Pre-workshop Neighbourhood Walk

This form covers a variety of topics that will be explored during today’s workshop. Please feel free to jot down any notes that you wish to capture during the neighbourhood walk. You may either submit this at the workshop *registration table* to share your feedback or choose to hold on to it as a reference as you participate in the topic-related conversations at the workshop. Thank you!

Getting around the neighbourhood and enjoying public outdoor areas	Things that work well	Things that can be improved
<p>Walking (Consider: safety, convenience, connections, crossing roads or parks, accessibility, mobility, interactions with drivers and bikers)</p>		
<p>Biking (Consider: safety, hazards, connections, parking, crossing streets, moving through intersections, interactions with people walking and drivers)</p>		
<p>Locations to access public transit (Consider: flow of traffic, access to transit stops, location of transit stops, places to wait for transit, lighting, safety)</p>		
<p>Driving (Consider: traffic flow, speed, connections, hazards, blind spots, visibility, interactions with bikers and people walking, signs, lighting)</p>		
<p>Parking on the street (Consider: finding parking, locations of parking, how parking affects other activities, length of time available for parking, accessible parking, signs, lighting, safety)</p>		

City of Edmonton
Highlands Neighbourhood Renewal – Building Great Neighbourhoods
Pre-workshop Neighbourhood Walk

<p>Outdoor public parks and green spaces (Consider: sitting, visiting, playing, making connections to other areas of the neighbourhood, access, safety, lighting)</p>		
<p>History, heritage, and decorative features (Consider: locations, types, visibility, stories to be told)</p>		
<p>Landscaping, trees, other natural assets, and connections to the river valley (Consider: locations, visibility)</p>
