

## Native Grasses: Acreages/Large Properties

|                                    |                                    |                                    |   |
|------------------------------------|------------------------------------|------------------------------------|---|
| <b>SUN</b>                         | <b>PLANT HEIGHT</b>                | <b>REGULAR TO MOIST CONDITIONS</b> |   |
|                                    | Less Than or Equal to 50 cm (20")  | Sweet Grass                        | <i>Hierochloe odorata / Anthoxanthum nitens</i> |
|                                    | Less Than or Equal to 75 cm (30")  | Rough Bentgrass / Tickle Grass     | <i>Agrostis scabra</i>                          |
|                                    |                                    | Baltic Rush                        | <i>Juncus arcticus var. balticus</i>            |
|                                    | Less Than or Equal to 100 cm (40") | Narrow-Leaved Reed Grass           | <i>Calamagrostis stricta spp. inexpansa</i>     |
|                                    |                                    | Woolly-Fruited Sedge               | <i>Carex lasiocarpa</i>                         |
|                                    |                                    | Sartwell's Sedge                   | <i>Carex sartwellii</i>                         |
|                                    |                                    | <b>WET CONDITIONS</b>              |   |
|                                    | Less Than or Equal to 50 cm (20")  | Sweet Grass                        | <i>Hierochloe odorata / Anthoxanthum nitens</i> |
|                                    | Less Than or Equal to 75 cm (30")  | Baltic Rush                        | <i>Juncus arcticus var. balticus</i>            |
|                                    |                                    | Longstyle Rush                     | <i>Juncus longistyllis</i>                      |
|                                    | Less Than or Equal to 100 cm (40") | Narrow-Leaved Reed Grass           | <i>Calamagrostis stricta spp. inexpansa</i>     |
|                                    |                                    | Woolly-Fruited Sedge               | <i>Carex lasiocarpa</i>                         |
|                                    |                                    | Sartwell's Sedge                   | <i>Carex sartwellii</i>                         |
|                                    | Greater than 200 cm (80")          | Common Cattail                     | <i>Typha latifolia</i>                          |
|                                    |                                    | <b>DRY CONDITIONS</b>              |   |
|                                    | Less Than or Equal to 50 cm (20")  | Wolfberry                          | <i>Symphoricarpos occidentalis</i>              |
|                                    | Less Than or Equal to 75 cm (30")  | Rough Bentgrass / Tickle Grass     | <i>Agrostis scabra</i>                          |
| Less Than or Equal to 100 cm (40") | Thickspike Wheatgrass              | <i>Elymus lanceolatus</i>          |   |
| Less Than or Equal to 150 cm (60") | Canada Wild Rye                    | <i>Elymus canadensis</i>           |   |
