

Building a Greater Strathcona

Neighbourhood Visioning Survey

Edmonton

Strathcona's neighbourhood renewal has begun! The neighbourhood's aging road surfaces, sidewalks and light standards are scheduled to begin replacement construction in 2019. The City will also be considering other community enhancements and improvements in areas such as City-owned green spaces and parks. *(The project scope does not include arterial or alley replacement.)*

This survey allows you to get involved at the planning stage and share your vision for the future of Strathcona.

This survey may take up to 30 minutes to complete. You do not have to provide input into all of the questions, but the more you do the more information the City will have to gain an understanding of your community.

A Vision Statement for Strathcona

A vision “statement” is a sentence or two that summarizes the values and future that residents see for their community and that helps to guide the design of the neighbourhood. Input gathered from this survey will assist in creating a vision statement for Strathcona.

The Strathcona Neighborhood Working Committee (a neighbourhood-led committee committed to working with the City to help lead this project) have drafted a few transportation-related values for you to comment on:

- *street, sidewalks and intersections that are safe, comfortable and beautiful and accessible to all users*
- *zero major injuries or fatalities caused by traffic collisions*

12. Thinking about the transportation values stated above:

a) Do you agree with all of the transportation values proposed? ____ Yes ____ No

b) What would you change? _____

c) What would you add? _____
