**Re: ETS@Work Program**

Thank you for the opportunity to share Alberta Recycling's experience regarding the benefits of utilizing the ETS@Work Program.

As an organization that manages three recycling programs for the province, dealing with electronics, paint and tires, Alberta Recycling recognizes that its commitment to a better environment extends beyond administering these programs. In the course of developing a Green Procurement Policy, we encouraged employees to 'go green' by using public transport whenever feasible.

This option has only been enhanced with the creation of the ETS@Work Program, allowing Alberta Recycling's employees to receive a 12% discount as the organization purchases bus passes 'in bulk'. Over 50% of the employees have opted to go this route.

Alberta Recycling does not hesitate in recommending this program for businesses that want to do their part in saving the environment.

Sincerely,

Doug Wright, CEO  
Alberta Recycling
