

Daniel Boric, Principal Planner, Infill Liaison Team, Development and Zoning Services

Daniel was born and raised in Hamilton, Ontario, though he now calls Edmonton home. He is a Registered Professional Planner and a Full Member of the Canadian Institute of Planners. Professionally, Daniel works as a Principal Planner with the City of Edmonton's Infill Liaison Team. The team strives to help welcome more people and new homes into Edmonton's older neighbourhoods by fostering inclusive, sustainable communities for people of all ages and stages in life. Having most recently been part of the Infill Roadmap 2018 project, he looks forward to leading other major city-building initiatives in Edmonton.

James Sande, Senior Strategist, Land Governance, Real Estate

James has 25 years of commercial real estate valuation experience in both the public and private sectors. He has led and supported land management policy and strategy development for the City of Edmonton since 2017. James holds degrees in Law and Commerce through the University of Alberta, and AACI designation through the Appraisal Institute of Canada.

Michael Doyle, Principal Planner, Development and Zoning Services

Michael is a Principal Planner within Development and Zoning Services at the City of Edmonton. His work focuses on development process improvements, zoning bylaw implementation and compliance in order to contribute to more livable, safe and sustainable communities.

Shamim Begum, Development Engineer, Planning Coordination (Drainage)

Shamim is a professional engineer with public/private sector experience with drainage design and drainage planning. Through the City of Edmonton's rezoning and subdivision process, she has reviewed complex Land Development Applications in core and mature communities, ensuring that these proposals meet and support the City's goal of orderly and environmentally friendly urban growth and cooperative partnership with the development Industry.

Patrick Nha Nguyen, Transportation Engineer, Planning Coordination (Transportation)

For the past six years, Patrick Nha Nguyen has held a variety of roles with the City of Edmonton, from construction inspector to roadways project engineer. In his current position, he reviews traffic and parking impact assessments for complex rezoning and major multi-use development applications, providing recommendations to ensure all modes of transportation and safety for vulnerable road users are considered. In addition, he reviews concept and detailed design plans submitted by third-party consultants and City engineering teams.

Kenneth Yeung, Principal Planner, Residential Approvals, Development and Zoning Services

Kenneth Yeung is a Principal Planner with the City of Edmonton. He obtained his Master of Science with Distinction in Urban Planning from The University of Hong Kong. Kenneth is interested in the public participatory approach in planning, passionate about compact city and medium-to-high density building designs, and has and continues to advocate for affordable and quality housing in mature and established neighbourhoods.

Ken Morris, General Supervisor, Appraisal Services, Real Estate

Ken has over 30 years of real estate valuation experience in both the public and private sectors. He has led the appraisal team for the City of Edmonton since 2011 in valuing all types of real estate interests. Ken holds degrees in Arts (Major in Urban Geography) and Commerce, both through the University of Alberta, and AACI designation through the Appraisal Institute of Canada.
