Policy Statement

The City of Edmonton supports the principle of Connectedness in ConnectEdmonton by maintaining strong relationships with its regional partners so that potential impacts from planning and development applications in close proximity to the City's boundaries are identified and mitigated in a collaborative manner.

The purpose of this policy is to state the City's commitment to notify regional partners of land use planning and development applications, and refer these applications to them.

Guiding Principles

The City's commitment to communicating and engaging with its regional partners is in accordance with the following guiding principles:

- **Interjurisdictional collaboration:** working with our regional partners around the perimeter of Edmonton ensures a seamless transition from one municipality or jurisdiction to another for the benefit of all parties involved or affected.
- **Informed decision-making:** obtaining feedback from our neighbours is key to making an informed decision.
