Policy Statement

This policy guides the expenditures that support Councillors in performing their diverse roles and in representing their constituents.

Guiding Principles

The following principles underpin the Councillors' budget and expenses provisions:

- **Autonomy of Council:** City Council, as the decision-making body of the City, is separate and distinct from City Administration.
- **Integrity of Council:** The integrity of City Council as a whole and the Office of the Councillors must be protected. The interests of City Council as a whole take precedence over the personal interests of individual Councillors.
- **Accountability:** Councillors are stewards of City resources and are ultimately accountable to the public and their constituents for the type and level of expenses they incur. Councillors' expenses must be reasonable and reflect what the public expects of an elected official. Councillors' role-based business expenses and personal expenses must be kept separate. These business expenses should not add value to personal assets.
- **Transparency:** The public has a right to know how public funds allocated to Councillors are spent. The public's right to Councillors' expense information must be balanced against the need to

protect privacy and personal information, and allow time for proper accounting and reconciliation of expenses.

- **Equitable Access to Resources:** Councillors should have access to the same level of funding to run their offices, regardless of personal financial circumstances.
- **Flexibility and Limits:** Councillors require flexibility to perform their roles, operate their offices and pursue interests related to their roles. Councillors engage their communities differently. Expenditures must not conflict with requirements set out in the Municipal Government Act, the Local Authorities Election Act, the Council Code of Conduct Bylaw, and Councillors' Budget and Expenses Policy. All accounting, audit and Income Tax Act principles and rules must be followed.

Purpose

The purpose of this policy is:

- To provide Councillors with the flexibility to allocate resources in the most efficient, effective and economical way to meet their own particular requirements.
- To achieve economies of scale where practical by pooling resources for the common use of all Councillors.
- To recognize Councillors' accountability for managing City resources allocated to them.

The City of Edmonton funds Councillor expenses that:

- Fall within the general categories of expenditures that this policy outlines.
- Are within the limits that City Council has set for its Members.
- Are non-personal in nature.
- Are not third-party expenses.
- Do not support or feature any candidate in any municipal, school board, provincial, federal election or by-election, or promote consent or rejection of a question that has been submitted to electors.
