Ada Boulevard Bridge over Wayne Gretzky Drive

Why is this rehabilitation happening?

- Last rehabilitation was in 1997
- Prolong service life of bridge
- Enhance user safety

What will the rehabilitation involve?

- Replacement of the asphalt wearing surface with new fibre reinforced high-performance concrete
- Replacement of the deck joints
- Replacement of the existing sidewalk on the north side of the bridge with a wider, shared-use-path to match the shared-use pathway sidewalk to the west.
- Replacement of the existing bridge railings to enhance safety
- Removal and replacement of the existing bridge paint

Closure and Construction Timelines

- Full closure of bridge from April – October 2021
- Specific closure dates will be shared at: Edmonton.ca/adaboulevard
- Signage near the site
- Construction bulletin will be sent to residents

Access

- Access to residence and other properties will be maintained
- Special access (e.g., DATS) can be shared with project team
