

### Newton CornerStore Project:

Improvements around the local commercial area include upgraded decorative lighting, and additional landscaping.

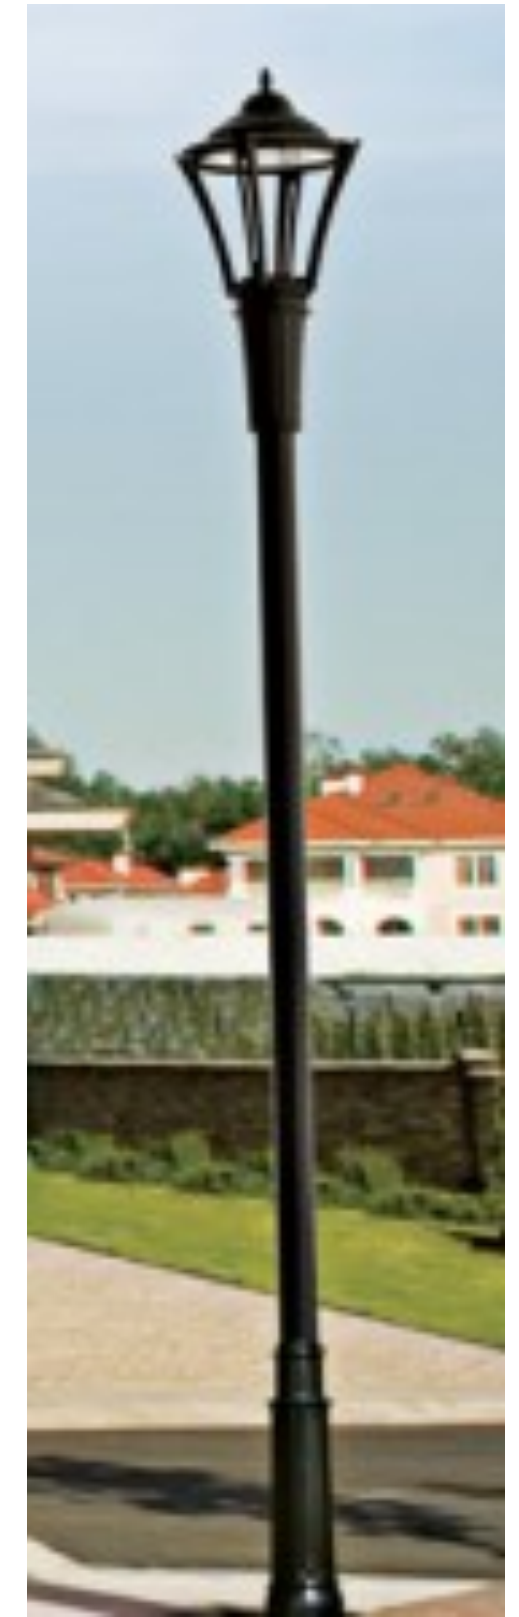

*Capital infrastructure improvements are one of five elements of the CornerStore Pilot Program, which aims to re-establish the neighbourhood shopping centre as a hub of community activity through improvements to City infrastructure, the buildings and businesses within.*

**Hard surfacing improvements through Neighbourhood Renewal:**

**Wider sidewalks (2m) where possible, Curb extensions at crossings**

**Lighting: Decorative standard poles & pedestrian poles adjacent to Newton Centre**

*\* proposed color is black, pending neighbourhood decorative light local improvement*

**Landscaping: possible plant material**
