

Centre LRT Study

Project: To determine the best LRT route to connect Downtown, the university area, Strathcona and Bonnie Doon to complete the City's low-floor LRT network.

Construction: There is currently no funding in place for construction.

Centre LRT Study: Preferred Route

Benefits of Preferred Route:

- Completes the core LRT network to provide seamless or one transfer connections to all quadrants of the City
- Connects University of Alberta North and Campus Saint Jean
- Provides direct link between downtown and Old Strathcona
- Supports Whyte Avenue, 109 Street and downtown businesses
- Provides a significant increase in transit capacity within an existing high transit use corridor
- Supportive of the existing higher density and vibrancy along the route
- Supportive of planned CP Rail Yard redevelopment and Bonnie Doon redevelopment
- Encourages walking and transit need for parking in old Strathcona
- Provides opportunity for wider connectivity of the LRT network to and from the route
- Supportive of the development of the wider bicycle network and integration
