Edmonton

A Neighbourhood Story...

- Neighbourhoods are made up of people and built spaces.
- Every day people interact with these spaces.
- We walk, cycle, drive or bus to our homes, schools, roads, parks, offices and shopping areas.
- We build meaningful relationships with our family, friends and neighbours as we contribute to the sense of community within our neighbourhoods.

The City of Edmonton supports your neighbourhood story for community relationships and built spaces through two programs.

Neighbourhood Revitalization

Together we mobilize and support community to identify strengths, issues and priorities to create and implement a strategy that builds a more vibrant, inclusive, healthy, safe and attractive neighbourhood.

Community takes the lead on community projects, with support from the City.

Neighbourhood Renewal

Together we create a vision that reflects the values and priorities of a community and shapes the design and construction of a great neighbourhood.

Renewal uses neighbourhood input to design and construct the new built spaces.

Shared Timelines

Integrated in your Neighbourhood

RENEWAL	REVITALIZATION
Built Spaces	People
<i>Stronger and Sustainable</i>	
-Renew roads, sidewalks and public spaces to last for next 50 years	-Empowering community to build strong and inclusive relationships and connectedness among groups
<i>Building Value in the community (Assets)</i>	
-Adding and enhancing existing roads, sidewalks, lighting and open spaces	-Mobilize community leaders to build on community assets to make the neighbourhood safer to live, work and play
<i>Vibrancy and Community Identity</i>	
-Physical design that people can connect/gather around -Beautification and Art	-Mobilizing community leaders to carry out actions that build connections among neighbours, strengthen the local economy and beautify the neighbourhood
<i>Placemaking</i>	
-Beautification and Art -Urban design	-Empower community to carry out initiatives that strengthen their sense of connection to their neighbourhood
<i>Safety</i>	
-Physical safety of transportation design -Accessibility for persons with physical barriers -Lighting comfort	-Support community members to lead actions that make their neighbourhood safer
