5.	Round Table	
	<ul style="list-style-type: none"> <li>The matter of parasitic parking in the vicinity of LRT stations was raised with some concern expressed over the City's typical practice of waiting to confirm the existence and nature of the problem before addressing it, rather than anticipating and intercepting it in advance. Especially with the introduction of neighborhood renewal it was felt that measures such as signage should be considered in concert with other neighborhood initiatives.</li> <li>Similar views were expressed with respect to neighborhood shortcutting that might be expected as a result of the traffic pattern changes arising from the introduction of LRT.</li> <li>The group urged close coordination with neighborhood renewal and the great neighborhoods program.</li> </ul>	
6.	Next meeting	
	<ul style="list-style-type: none"> <li>It was agreed that the group would plan to meet again in October. Jack will poll members in advance to arrange a convenient date and time.</li> </ul>	Jack Stuempel
