

Saskatchewan Drive Rehabilitation

The Saskatchewan Drive rehabilitation project did not receive funding in the 2019–2022 Capital Budget cycle, but may be up for consideration again in the next Capital Budget (2023–26).

This work may also be included with the future Duggan Bridge work, currently scheduled for 2023. The recommended design will be posted on the project website in Spring 2019.

Saskatchewan Drive/Scona Road Intersection

- + Options are currently under review for the eastbound to southbound turn to remain
- + Refined options will be presented to the community for feedback this spring
- + Construction is anticipated for 2019
