RE: Tentative plan of subdivision to create two (2) commercial lots from Lot 1, Block 7, Plan 182 0106 located north of 30 Avenue SW and east of Cavanagh Boulevard SW; **CAVANAGH**

---

2. that the owner pay all outstanding property taxes prior to the endorsement of the plan of survey.

Municipal Reserve (MR) for Lot 1, Block 7, Plan 182 0106 was addressed by dedication with LDA14-0055 and Deferred Reserve Caveat (DRC) with LDA13-0022.

RE: Tentative plan of subdivision to create one (1) additional single detached residential lot from Lot 31, Block 15, Plan 2639 KS located south of 122 Avenue NW and west of 135 Street NW;  
**DOVERCOURT**

---

**The Subdivision by Plan is REFUSED on March 29, 2018 for the following reason(s):**

1. The proposed subdivision does not comply with the minimum Development Regulations identified in Section 110 of the City of Edmonton Zoning Bylaw. The minimum site depth identified in the RF1 (Single Detached Residential) Zone for permitted and discretionary uses is 30.0 metres. The averaged lot depth of proposed Lot 33 is 20.65 metres and therefore deficient in depth by 9.35 metres, or 31.16%;
2. When an application for subdivision is submitted for consideration, the Subdivision Authority is charged with the responsibility to ensure that the proposed subdivision would not unduly interfere with the amenities of the neighbourhood or materially interfere with or affect the use, enjoyment or value of the neighbouring parcels of land (Section 654 of the Municipal Government Act).

The proposal will result in site depths that are uncharacteristically smaller when compared to properties on the block face. For example, the site depths on the block face range from 36.58 metres to 56.97 metres. The averaged lot depth of proposed Lot 33 is 20.65 metres, which is significantly smaller than lots characteristic to the block face.

Therefore, it is the position of the Subdivision Authority that the proposed subdivision would not comply with Section 654 of the Municipal Government Act; and

3. The proposed "flag lot" configuration of Lot 34 is not acceptable to the Subdivision Authority. The narrow 3.05 metre wide portion of the proposed lot is an attempt to address the fact that, before the "flag lot" configuration, the proposed lot did not border the adjacent sanitary sewer main. Creating an irregular lot is not the preferred solution to this problem, and in addition, it reduces the size and development potential of proposed Lot 33. The Subdivision Authority contends that when the Subdivision and Development Appeal Board allowed a previous appeal on this property (SDAB-S-17-001), it correctly addressed the servicing deficiency by requiring "all necessary sewer main extensions."

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 – 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. The date of receipt of the decision is deemed to be seven (7) days from the date the decision is mailed.

RE: Tentative plan of subdivision to create one (1) additional single detached residential lot from Lot D, Plan 902 0626, located south of 195 Avenue NE and east of Fort Road NE; **MARQUIS**

---

**The Subdivision by Plan is REFUSED on March 29, 2018 for the following reason(s):**

1. the subject lot is designated as “Existing Residential” as per section 5.0 - Development Concept of the Marquis Neighbourhood Structure Plan (NSP) (Bylaw 17396). The intent of this designation is to allow for the existing country residential development to remain, while allowing for compatible transitional uses (i.e. single detached housing) around the existing rural residences in a sensitive manner. Creating a new country residential lot would be contrary to the intent of the Marquis NSP because it would further fragment land ownership, creating a barrier to future redevelopment of the area;
2. the subdivision does not comply with Section 6.2 Residential of the Marquis Neighbourhood Structure Plan, which states that “Any future redevelopment of existing residential uses would be required to meet the City of Edmonton and *Capital Regional Growth Plan* residential density targets.” The Marquis NSP has a projected neighbourhood density of 38.2 units per net residential hectare (upnrha); and
3. the subject lot is zoned as (RR) Rural Residential Zone and is therefore subject to the regulations of Section 240 of the Edmonton Zoning Bylaw 12800. The subdivision does not comply with Section 240.1 of the Edmonton Zoning Bylaw 12800 which states “The RR Zone is intended to regulate rural residential development within existing rural residential subdivisions that existed prior to the passage of this Bylaw, and is not intended to facilitate future rural residential development and subdivision, which is contrary to the Municipal Development Plan”.

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 – 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. The date of receipt of the decision is deemed to be seven (7) days from the date the decision is mailed.

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$662.00 - 2018 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222) and EPCOR Drainage Services (water and sewer servicing 780-496-5444).

The existing storm service enters the proposed subdivision approximately 6.7 m south of the north property line of Lot 42 off of 148 Street. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$662.00 - 2018 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site on 132 Street NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's web site (Trees and Construction).
- Access for future development must be to the adjacent alley in conformance with the Mature Neighbourhood Overlay Sec. 814.3(17) of the Zoning Bylaw #12800. Further details of access will be reviewed upon submission of a detailed site plan or development permit application.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222) and EPCOR Drainage Services (water and sewer servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 5.7 m north of the south property line of Lot 17 off of the lane. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
