The Subdivision by Plan is APPROVED on April 29, 2021, subject to the following conditions:

5. that the owner pay all outstanding property taxes prior to the endorsement of the plan of survey.

Enclosure I is an attachment of the major advisements throughout the subdivision process. Enclosure II is a map of the subdivision and identifies major conditions and advisements of this approval.

Please be advised that the approval is valid for one (1) year from the date on which the subdivision approval is given to the application. An extension beyond that time may be granted by the City of Edmonton.

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 - 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. Enclosure(s)

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$686.00 - 2021 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- Access for future development must be to the adjacent alley in conformance with the Mature Neighbourhood Overlay Sec. 814.3(17) of Zoning Bylaw #12800.
- There are existing boulevard trees adjacent to the site that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- There is an existing power pole and guy wire that may interfere with access to the alley for proposed Lot 3M. Subdivision Planning highly recommends that the applicant/land owner contact EPCOR, prior to Development Permit application, to ensure the power pole does not impede the location of the alley access to the site. The applicant should contact Ron Hewitt (780-412-3128) of EPCOR Customer Engineering for more information.
- The owner is advised that 97 Street is part of the active transportation network and the existing Bike Network. It has been designed to include protected bike lanes within the 97 Street road right-of-way. If the applicant chooses to apply for a side access variance for proposed Lot 1M, it may not be supported by Subdivision Planning's transportation review team.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

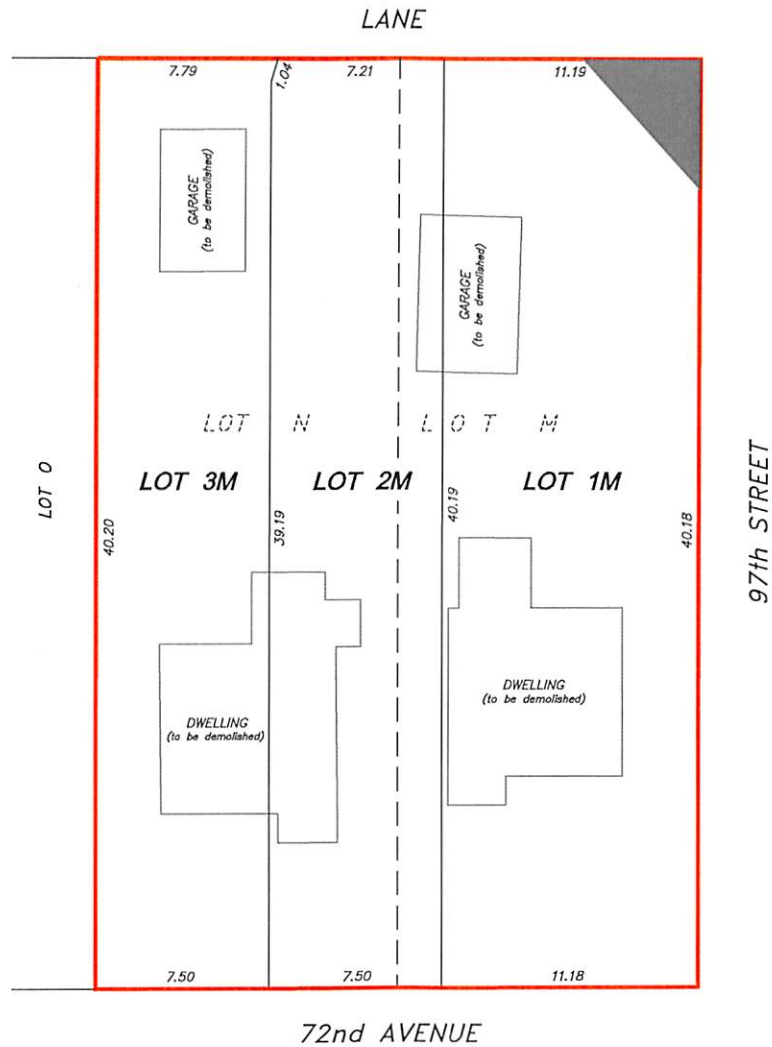

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- One set of services (water and sanitary) enter the proposed subdivision approximately 8.1 m west of the west property line of 97 Street NW off of the lane. Another set of services enter the proposed subdivision approximately 18.9 m west of the west property line of 97 Street NW off of the lane. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street fire protection adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
