Enclosures

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$5,390.00 - 2019 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There is an existing access to 156 Street NW, as shown on the Enclosure. Any change to the existing access requires the review and approval of Subdivision and Development Coordination.
- Access to all units shall be provided via common property, as shown on the Enclosure. No additional access will be permitted to 156 Street NW.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- Water supply to the site must be provided from the existing 100mm water service off 156 Street. The owner/developer will be responsible for all related costs of any modifications or additions to the existing water infrastructure required by this application/proposal.
- The existing water services enter the proposed subdivision approximately 29.3 m north of the south property line off the easement east of 156 Street NW. The existing sanitary services enter the proposed subdivision approximately 45.0 m north of the south property line off the easement east of 156 Street NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- Please note there is a deficiency in on-street fire flows adjacent to the property. City of Edmonton Standards requires on-street fire flows of 300 l/s for the current zoning. On-street fire flows in the area are below the required flow rate. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage.
- Due to the size and configuration of the proposed lot, on-street fire protection is limited to portions of this site directly fronting 156 Street. Additional/alternate methods of supplementing or meeting on-site fire protection requirements must be addressed at the Development Permit stage.
- In order to maintain existing and future power facilities, EPCOR Distribution & Transmission Inc. will require easements within the proposed Unit 1, 2, 3 lots (the specific required length and width needed would be determined on the plans for the proposed lots). As part of the easement, EPCOR Distribution & Transmission Inc. may require the removal of any existing

fencing or obstruction crossing the subject property in order to facilitate the installation of and maintain any existing or future electrical system at the cost of the landowner. All costs of procuring the easement or Right of Way are the responsibility of the landowner or the City. Contact our Land Administrator at 780-412-3252 for the current documents to be used.

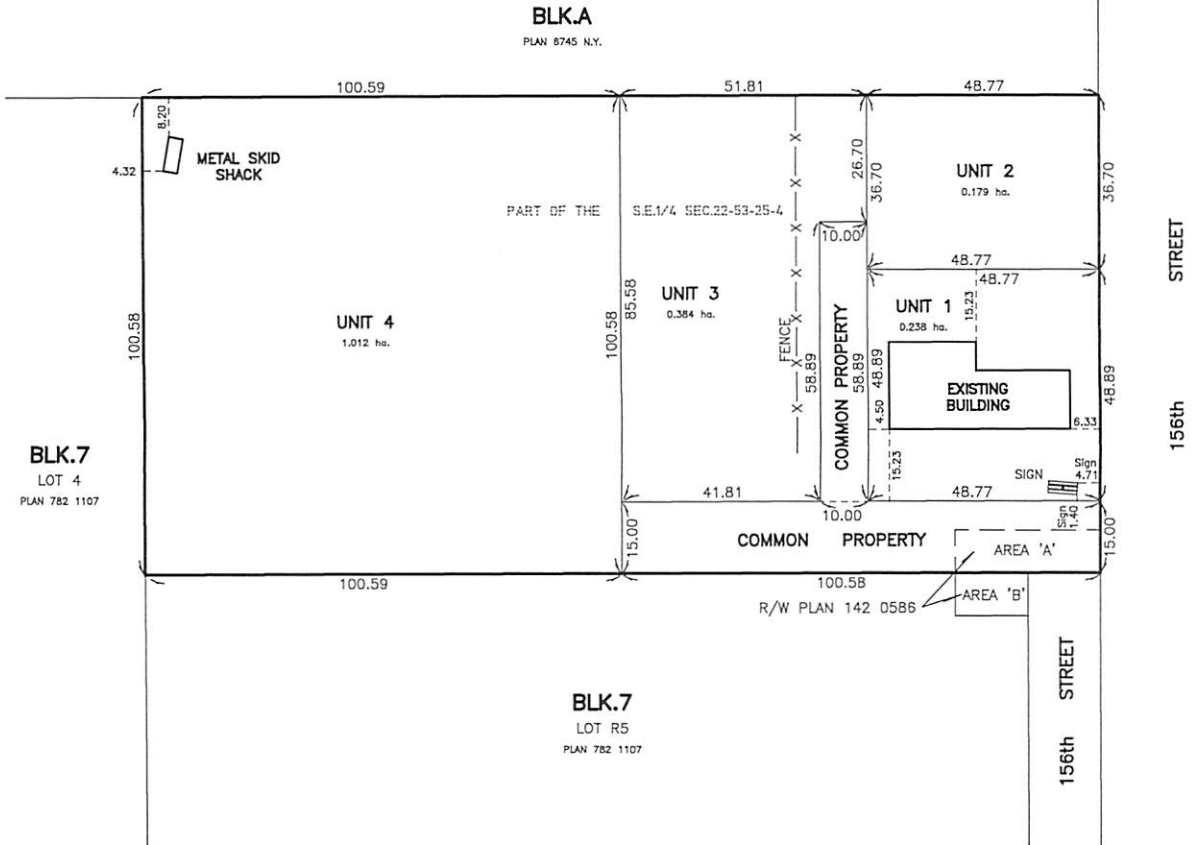

- For any proposed development of the industrial lot, grading plans will be submitted to Development services, City of Edmonton and mechanical site plans must be submitted to EPCOR Drainage for approval. The lot grading plan must demonstrate that the lot drains effectively away from any proposed buildings and does not negatively impact neighbouring properties or natural drainage courses.

Enclosures

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$673.00 - 2019 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site on 79 Avenue NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- Access for future development must be to the adjacent alley in conformance with Mature Neighbourhood Overlay Section 814.3(17) of the Zoning Bylaw #12800.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

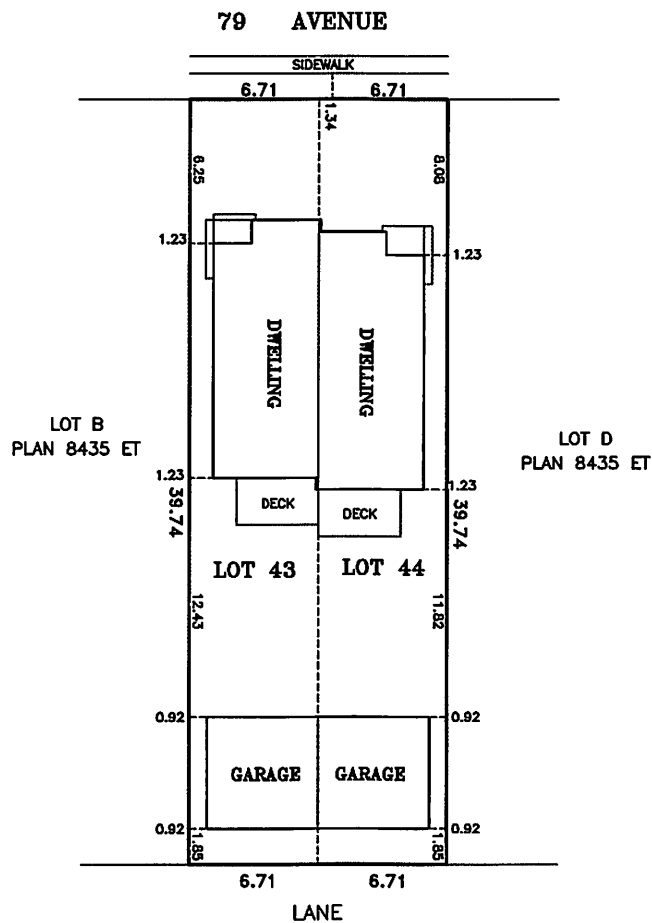

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
