Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$673.00 - 2019 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site on University Avenue NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- Access for future development must be to the adjacent alley in conformance with Mature Neighbourhood Overlay Section 814.3(17) of the Zoning Bylaw #12800.
- There is an existing access to University Avenue NW. Upon redevelopment of proposed Lot 42B, the existing residential access to University Avenue NW must be removed. The owner/applicant will be required to obtain a Permit to remove the access, available from Development and Zoning Services, 2nd Floor, 10111 - 104 Avenue NW, Edmonton.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 9.1 m west of the east property line of Lot 42 off of the lane. The existing storm service enters the proposed subdivision approximately 9.1 m east of the west property line of Lot 42 off University Avenue NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- There is an existing power pole and guy wire that may interfere with access to the alley for proposed Lot 42A. Subdivision Planning highly recommends that the applicant/owner initiate the relocation of the power pole/guy wire with EPCOR Distribution & Transmission as soon as possible, as this pole may inhibit alley access to the site and may result in a delay with the issuance of the Development Permit. Contact Ron Hewitt (780-412-3128) of EPCOR Distribution & Transmission for more information.
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
