Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$673.00 - 2019 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

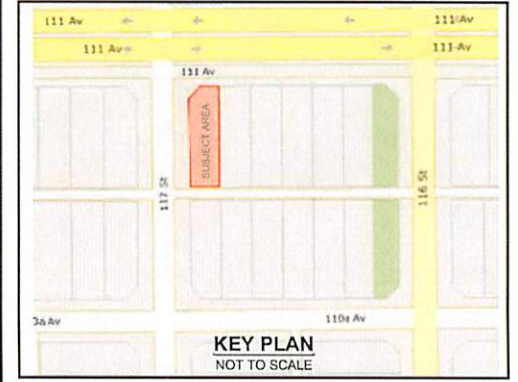

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 9.75 m east of the west property line of Lot 370B off of the lane. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).

Subsequent to MR, ER and arterial road dedication the existing Deferred Reserve Caveat (DRC) for the NE-15-51-25-W4M will be reduced accordingly, with the balance to carry forward on the remainder of the title.

Please be advised that the approval is valid for one (1) year from the date on which the subdivision approval is given to the application. An extension beyond that time may be granted by the City of Edmonton.

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 - 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. II The Servicing Agreement required in Clause I(1) shall contain, among other things, the following:

1. that the owner pay all servicing costs, assessments, roadway modification costs (including but not limited to sidewalk, shared use path and/or transit infrastructure), construction costs and inspection costs required by this subdivision;

17. that a Final Acceptance Certificate (FAC) for sanitary and storm sewers will not be issued until such time that the downstream permanent sanitary and storm sewer systems are completed and operational, to the satisfaction of Subdivision.

Enclosure I is a map of the subdivision identifying major conditions of this approval.

There is an existing DRC for 3.240 Ha on the west half of NW 32-51-23-W4M. The DRC will be reduced to account for the dedication of the 0.505 Ha park site and will carry forward on title.

The new DRC for the east half of the NW 32-51-23-W4M will be a combination of 3.15 Ha owing from this file and 0.053 Ha owing from LDA19-0038 (closed portion of road).

Enclosures

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$673.00 - 2019 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site on 101 Street NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- Access for future development must be to the adjacent alley in conformance with Mature Neighbourhood Overlay Section 814.3(17) of the Zoning Bylaw #12800.
- There is an existing power pole in the alley. Site access must maintain a minimum clearance of 1 m from the closest edge of the power pole to the closest edge of the proposed driveway.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing water service enters the proposed subdivision approximately 5.5 m south of the north property line of Lot 16 off of the lane. The existing sanitary service enters the proposed subdivision approximately 42.8 m south of manhole# 278101 and is assumed straight in off 101 Street NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).

RE: Tentative plan of subdivision to create one (1) additional single detached residential lot from Lot 1, Block 12, Plan 942 2111, located north of 9 Avenue NW and west of 113 Street NW; **TWIN BROOKS**

The Subdivision by Plan is REFUSED on December 19, 2019 for the following reasons:

1. The proposed subdivision does not align with the intent of the City of Edmonton's Municipal Development Plan (MDP), The Way We Grow. This strategic growth plan supports redevelopment and residential infill that are both safe and sensitive to a community's character. For example, MDP Policy 5.2.1.1 directs development to fit with the existing and planned neighbourhood context. It is required to respect the scale, form, massing, style and materials of the neighbourhood.
2. The proposed east Lot's size is uncharacteristically small when compared to most surrounding properties. For example, Site Depths in this vicinity average 37.0 metres. Additionally, the ten residential Lots immediately west of the subject Site yield an average Site Area of 629.8 square metres. The proposed east Lot has a Site Depth of approximately 30.0 metres and a Site Area of 455.0 square metres, rendering it considerably deficient when compared with other properties in the area.
3. When the minimum setbacks identified in Section 110.4 of the City of Edmonton Zoning Bylaw 12800 are applied to the proposed east Lot, its building envelope limits development to a size that is out of scale and inconsistent with surrounding properties.

The minimum Front Setback identified in the (RF1) Single Detached Residential Zone for Single Detached Housing is 4.5 metres. The minimum Rear Setback for Single Detached Housing is 7.5 metres in the RF1 Zone. This setback may decrease to 4.5 metres, depending on the development's design and orientation, but these details are not confirmed until the Development Permit stage.

The minimum Side Setback identified in the (RF1) Single Detached Residential Zone for Single Detached Housing is 1.2 metres. This setback may increase up to 4.5 metres along the proposed east Lot's south edge (9 Street NW), depending on design details established at the subsequent Development Permit stage. Additionally, a utility right-of-way is registered on title for Lot 1, Block

12, Plan 942 2111. It prevents development within approximately 2.0 metres of the proposed Lot's north edge, which abuts a Public Utility Lot.

4. Due to the absence of a Lane, the applicant proposes Site access to the east Lot off of 9 Avenue NW. This vehicular access will interrupt an existing sidewalk and may require boulevard tree relocation. The Twin Brooks neighbourhood was designed so that no driveways front onto 9 Avenue NW, in order to accommodate the collector roadway's traffic volumes. The east Lot's proposed access is situated along a curved portion of 9 Avenue NW that is in close proximity to the 113 Street NW intersection and a crosswalk. Introducing an access at this location creates concerns about appropriate visibility and safety for the property's vehicles, approaching drivers, pedestrians, and cyclists.

Enclosure I is a tentative plan of the proposed subdivision.

Please be advised that an appeal may be lodged in accordance to Section 678 of the Municipal Government Act with the Subdivision and Development Appeal Board, 10019 - 103 Avenue NW, Edmonton Alberta, T5J 0G9, within 14 days from the date of the receipt of this decision. The date of receipt of the decision is deemed to be seven (7) days from the date the decision is mailed.

Please be advised of the following:

Next Steps for Subdivision Approval

- The next step in the subdivision process is to have a legal instrument prepared (ie. Plan of Survey) in order to register the approved subdivision. The legal instrument is then forwarded to the City for endorsement along with the endorsement fee (\$673.00 - 2019 Fees Schedule) and subsequently released to the applicant for registration at the Land Titles Office.

Transportation

- There are existing boulevard trees adjacent to the site on 121 Street NW and 41 Avenue NW that must be protected during construction. For information about tree protection please refer to the City of Edmonton's website (Trees and Construction).
- Access for future development must be to the adjacent alley in conformance with Mature Neighbourhood Overlay Section 814.3(17) of the Zoning Bylaw #12800.

Building / Site

- The owner shall ensure that any change in property boundaries does not cause any structures on site to become non-compliant with the Safety Codes Act and the Alberta Building Code. Permits may be required for such changes. Please contact 311 for more information.

Servicing

- The owner is required to make satisfactory arrangements for, and pay all costs associated with separate servicing to each lot, as well as the modification, relocation and/or removal of existing services. For further information, please contact: EPCOR Distribution & Transmission Inc. (780-412-4000), TELUS Communications (Edmonton) Inc. (Real Estate Division [Rights of Way] 780-508-2456), ATCO Gas (780-424-5222), and EPCOR Drainage Services (Water and Sewer Servicing 780-496-5444).
- The existing services (water and sanitary) enter the proposed subdivision approximately 9.5 m north of the south property line of Lot 35 off of the lane. The existing storm service enters the proposed subdivision approximately 9.6 m north of the south property line of Lot 35 off 121 Street NW. As per the EPCOR Drainage Services Bylaw and the EPCOR Water Services and Wastewater Treatment Bylaw, these services cannot cross the proposed property line.
- There is a deficiency in on-street hydrant spacing adjacent to the property. The applicant/owner is advised to review on-site fire protection requirements to ensure adequate coverage (contact EPCOR Water at 780-412-3955).
- If power service crosses the proposed property line the owner may be required to provide a blanket easement in favour of EPCOR Distribution & Transmission Inc. If required, said easement shall be registered prior to or concurrent with the final plan of survey (contact EPCOR Land Administration Group at 780-412-3252).
