

Valley Line West LRT Notice

Upcoming Tree Removals

Edmonton

Upcoming Work

The City of Edmonton will remove 19 trees in the West Edmonton Mall overflow parking lot north of 90th Avenue and east of 175th Street to prepare for construction of the temporary transit centre. The removals are scheduled to take place from March 19 to 21, 2021, and the date for this work is subject to change depending on the weather conditions. We do not expect any impacts to traffic or pedestrians in the area.

West Edmonton Mall Temporary Transit Centre

The City of Edmonton plans to relocate the existing West Edmonton Mall Transit Centre on 87th Avenue while the Valley Line West LRT is under construction. The temporary location for the transit centre will be in the mall overflow parking lot north of 90th Avenue and east of 175th Street. This location will ensure continuity of transit service in west Edmonton during Valley Line construction. Transit users will continue to receive safe and uninterrupted service to and from the surrounding communities and West Edmonton Mall. Construction for the temporary transit centre is expected to begin in May 2021. The temporary transit centre will operate for approximately 5 to 6 years during construction of Valley Line West.

Trees & Valley Line West

We know Edmontonians value their urban forest canopy. Part of our construction preparations include pruning trees and shrubs, and relocating or removing a limited number of trees. The City has worked hard to reduce impacts to trees along the line. We are protecting and working around existing trees when we can, and will relocate or plant new trees where necessary. Approximately 1,800 trees will be planted along the 14-km Valley Line West corridor. For more information, visit edmonton.ca/valleylinewest or edmonton.ca/trees.
