2026-2027 Recreation Partner and Facility Investment Program (RPFIP) Award Recipients

Name of Organization (incl. website address)	Project Name & Description	Funding Amount
Edmonton Minor Soccer Association	**Northern Alberta Regional Sports Center** EMSA plans to construct the Northern Alberta Regional Sports Centre, an indoor facility adjacent to the Mario Charpentier Soccer Park with construction beginning in 2026. The center will feature professional-grade soccer fields, spectator seating, and multi-sport markings for baseball, rugby, and lacrosse. It will also include a performance training area, dressing rooms, and office space to support regional athletic activities.	$4,073,021 **
Garneau Tennis and Beach Volleyball Club	**Garneau Tennis and Beach Volleyball Club - Clay Court Resurfacing Project** The Garneau Tennis and Beach Volleyball Club plans to replace its aging, unsafe clay court surfaces and fencing with seven new Har-Tru courts to improve safety and playability. This rejuvenation project preserves the club's historic role as a unique outdoor venue while ensuring long-term accessibility and affordability for the Edmonton community. Upgraded facilities will support both recreational use and competitive training, strengthening the club's position as a premier destination for tennis in Alberta.	$342,403
Snow Valley Ski Club	**Snow Valley Net Park** Snow Valley plans to develop the Net Park, a unique all-ages elevated attraction in Edmonton that requires no harnesses, making it accessible to both young children and adults. This project aims to diversify summer recreational offerings and provide a vital revenue stream to offset the financial risks of weather-sensitive winter operations. Additionally, the expansion will support year-round employment and local job growth for the community.	$485,567

2026-2027 Recreation Partner and Facility Investment Program (RPFIP) Award Recipients

The Young Men's Christian Association of Edmonton o/a YMCA of Northern Alberta	**Castle Downs Family YMCA Elevator Modernization Project** The YMCA of Northern Alberta plans to modernize the obsolete 34-year-old elevator at the Castle Downs Family YMCA to ensure safety, accessibility, and code compliance. The project involves replacing core mechanical components, upgrading electrical and fire safety systems, and installing necessary environmental controls. These improvements will prevent service disruptions and maintain essential vertical access for the community facility's members.	$158,407
Edmonton Soccer Association	**South Indoor Centre Field Replacement** The project involves replacing an older carpet turf with a new modular synthetic system designed to enhance safety and reduce joint injuries for all players. This upgrade is expected to extend the field's lifespan by at least ten years, with modular components allowing for easy maintenance and further longevity.	$79,363
Total		**$5,138,762 ***

* The funding awarded through RPFIP includes a second funding installment of $69,506 for the 2025 Snow Valley Ski Club Lift Station Project. It also includes two partner projects that required immediate funding: the Community Recreation Centre at Glenridding School ($791,732) and the site preparation work for the Jumpstart Mini Pitch Project ($300,000).

** The Northern Alberta Regional Sports Centre is funded through 2026 & 2027 RPFIP budgets.
