

Capital Line South LRT

Construction Notice – Overnight work near 111 Street and 23 Avenue

Beginning **the week of February 9**, Ledcor will start overnight construction in/around the 111 Street and 23 Avenue LRT underpass. This work is expected to last approximately three months, and will occur on weekdays and weekends, extending work **from 6 p.m. to around 4:30 a.m.**

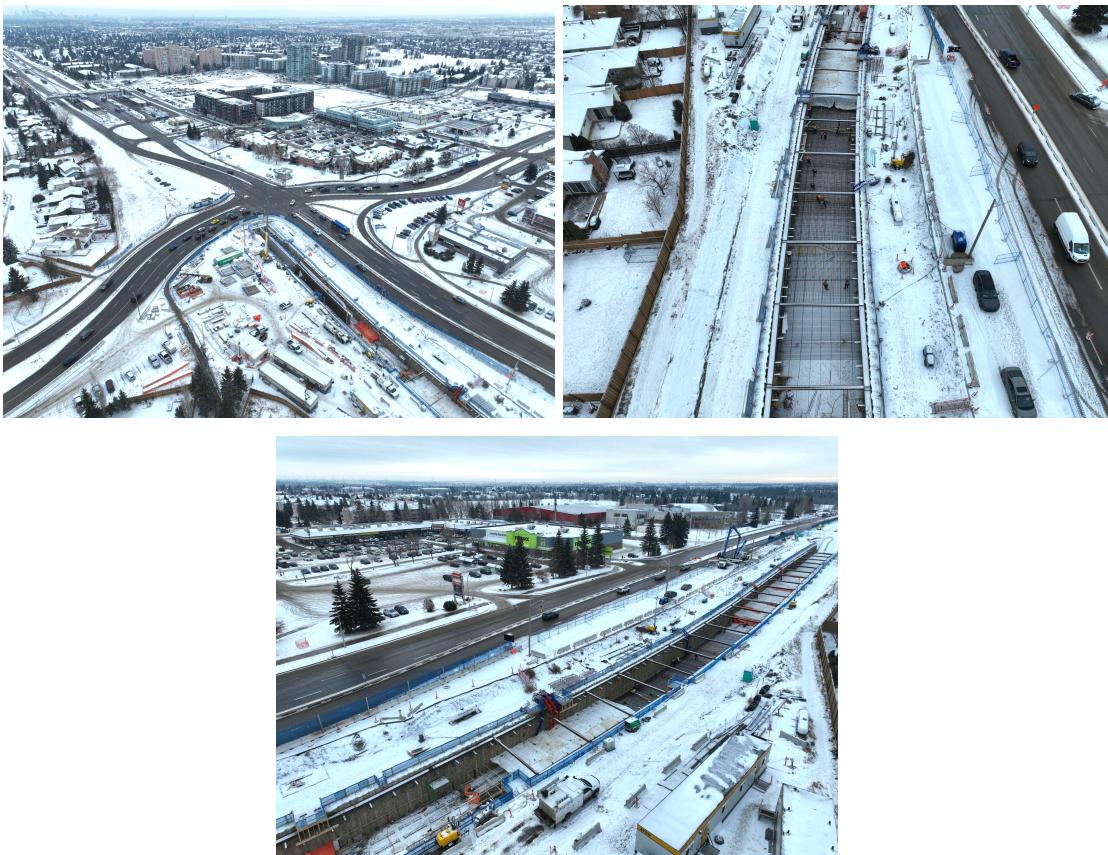

This work will be similar to the ongoing work happening during the day, including concrete preparation and pouring, sandblasting, etc. The area may see an increase in truck traffic, as well as temporary increases in noise and lighting. All efforts will be made to ensure these impacts are kept to a minimum and that lighting does not shine into nearby residences.

We apologize for the inconvenience this may cause, and thank residents and drivers for their patience during this time. Please refer to the map below for details.

Construction progress on the LRT underpass at 111 Street and 23 Avenue

Other Impacts

- Heavy truck traffic will increase on 111 Street and 23 Avenue.
- Site lighting will be monitored to ensure it is not directed into nearby residences.
- **Vehicle noise will be associated with this work.** Mitigation measures are in place to minimize these disruptions as much as possible. Ledcor is committed to following all City of Edmonton bylaws* and regulations and has obtained an overnight permit so work can take place during overnight hours. *City of Edmonton Bylaw C14600.
