

Construction Notice – Westbound/Eastbound Lane Closures on 23 Avenue

Beginning **on/around September 1**, Ledcor will temporarily close sections of **westbound and eastbound traffic lanes on 23 Avenue at 111 Street** to accommodate roadway/median removals and paving for the future configuration of 23 Avenue. **More information on upcoming changes to the 23 Avenue and 111 Street intersection will be shared in a future notice.**

Each closure phase is expected to last **approximately one week**. Whenever possible, Ledcor will minimize lane closures during peak hours along 23 Avenue. Please refer to the maps below for details.

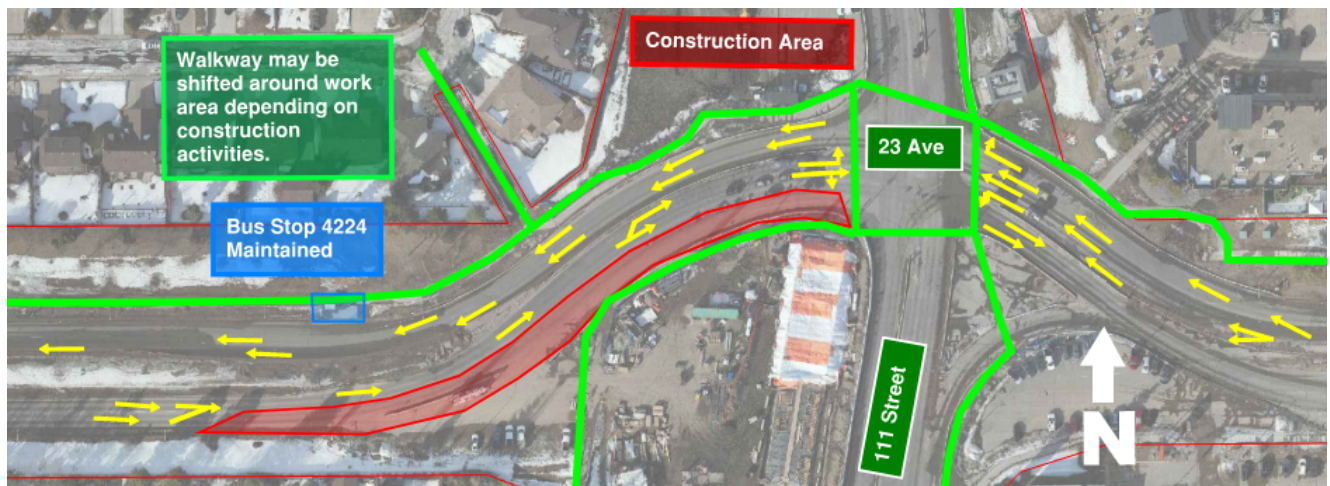

Phase 1: 23 Avenue Westbound Lane Closure

Phase 2: 23 Avenue Westbound and Eastbound Lane Closure

Phase 3: 23 Avenue Eastbound Lane Closure

Traffic impacts

- Phased westbound and eastbound lane closures on 23 Avenue.
- Appropriate construction signage and delineation devices will be installed along the temporary detour.
- Speed limits in the work zone are reduced to 40 km/hr in each direction.

Other impacts

- Pedestrian and cyclist routes may be shifted depending on construction activities, and appropriate signage will be installed for the lane closures. Temporary ramps will be used to ensure safe mobility.

- Sidewalk access will be temporarily adjusted during work, and pedestrians and cyclists will be detoured into the closed traffic lane, with detours communicated via signage.
- Efforts will be made to minimize noise, vibration and dust. Mitigation measures will be implemented to monitor and reduce these impacts. Ledcor is committed to complying with all City of Edmonton bylaws and regulations and has obtained an overnight permit to allow work during overnight hours.
