

Urban Timber Reclaimed Wood Co.  
10336 - 111 St.

22 June 2019

Northwestman

Originally built in 1944  
as the garage for British American  
Oil Co. at the same time as the BAOil  
warehouse across the parking lot, that the  
Indian fusion restaurant now occupies.  
These two buildings are the only structures remaining  
from the extensive CN Rail yards built in 1905.
