

March 9th, 1953

ADDENDUM TO C. R. NO. 13.

12. NUMBERING OF STREETS RATHER THAN NAMING.

The policy being followed by the City in laying out new streets and avenues is almost invariably to give each such street a number. There are odd exceptions, e.g. the road leading up from the proposed new bridge is being called "Groat Road". Where names have been used an attempt is made to relate such name to the subdivision, for example, Strathearn Drive in the Strathearn Subdivision, etc.
