

Upgrades coming to Wìhkwêntôwin traffic calming measures!

Improving Traffic Safety

Adaptable traffic calming measures were installed in **Wìhkwêntôwin** in 2022 to address traffic safety concerns such as speeding, shortcutting and other unsafe driving behaviours.

Opportunities to convert the installed adaptable traffic calming measures to permanent are reviewed and prioritized periodically at select locations. We're happy to share that several adaptable measures in Wìhkwêntôwin have been selected and will be converted to permanent measures. All other traffic calming measures in the neighbourhood will remain in place.

Adaptable traffic calming measures help the City to quickly improve road safety and adjust as needed. When these measures prove effective and budget allows, they are replaced with permanent asphalt or concrete solutions for long-term durability.

Planned Upgrades

Traffic calming measures outlined in the table below will be converted to permanent measures starting in **fall 2026**, weather and resources permitting.

Measure and Location	Benefit	Example Image
What We're Upgrading Speed cushions: • Intersection of 115 Street and 103 Avenue • 97 Avenue west of 109 Street	Speed cushions can help: ✓ Slow vehicle speeds ✓ Discourage shortcutting through the neighbourhood ✓ Reduce the risk of serious crashes ✓ Increase safety for people walking, biking, rolling and driving ✓ Allow for emergency and large service vehicles to pass with lower impact	 Image courtesy of City of Halifax
