	Major	\$15,855 +	(____ m ² x	\$1.06) =	\$ ____

Notes for Rezoning Application Fees

- The highest base fee is charged among proposed categories. Any applicable area rates are charged per proposed category - see example below.
 - If an application has proposed zones in the same category, the proposed category's base rate will be charged once.
 - Except MU and DCs, each zone within the same category or different category will be charged its associated area rate based on the site area (ha) for the boundary of the proposed zone(s).

Proposed Height (h) Modifiers changes under RSM, RM and RL zones shall be charged their respective category base fee and area rates.
 - If you are rezoning from a zone within the Agriculture category you will be charged for the full area of application (i.e., titled area). If you are rezoning from a zone that is not within the Agriculture category you will only be charged for the site area.
 - The increase in FAR for the MU zone will be calculated by subtracting the existing FAR from the proposed FAR. A reduction in FAR from the original development rights will not result in a reduction in fees.
 - Existing FAR is the maximum base FAR listed within a zone taking into account Floor Area Ratio (f) Modifiers. Embedded FAR modifiers such as for inclusive design or supportive housing will not be taken into account. Existing zones without a listed maximum FAR will have an FAR of 0.
- Direct Control Types are characterized as follows:
 - **Administrative:** A standard zone is being rezoned to a DC for a minor technical reason (i.e. minor numerical changes to regulations, removal of uses from a standard zone), minor amendments to an existing DC zone.
 - **Minor:** Changes to the character of the site that do not significantly change the intensity of the use.
 - Resembles a standard zone with minor changes to uses that change the character of the zone.
 - Addition or changes to regulation(s) from Standard Zone.
 - No increase in FAR from existing zoning.
 - Only "architectural" changes to height that do not result in additional floor area.
 - **Major:**
 - Significant changes to the character and intensity of uses. (i.e. commercial, residential and mixed use towers, adding residential uses to commercial site or non-residential uses to residential site, large-site rezonings)
 - Increase 2 or more of FAR/height/density
 - Major additions of uses from previous standard zone or DC
 - Major changes or additions of regulations from standard zone or DC
 - Application requires comprehensive site planning supported by technical studies
- Rezoning applications are subject to a notification and engagement fee component.
- The applicant must pay the difference in fees, prior to third reading of the amending Bylaw, for any application resulting in a zone in a higher fee category than that initially applied for, whether the application was amended by the applicant, Development Services, or City Council. If the resulting Zone is in a lower fee category, no refund shall be made.

Example Rezoning Application:

Safety Codes Fee is applicable to Building Permits, Gas Permits, Temporary Gas Permits, Plumbing Permits, HVAC Permits, Sewer Permits, and Electrical Permits. It is 4% of **each individual permit fee**, with a minimum of \$4.50 and a maximum of \$560 per permit.

4% of Safety Codes Permit Cost (per permit) (Min. \$4.50 Max. \$560)

Construction Value means the value of the construction of an undertaking as determined by the City Manager.

Combined Building Mechanical Permit Fee means a single fee payable for all of the following permits for an undertaking: a building permit, a gas permit, a heating, ventilating, and air-conditioning permit, and a plumbing permit.

Electrical Installation Cost means the cost of the materials and labour to install a particular electrical undertaking.

Floor Area is used as a denominator in determining the "cost per square foot" value. We have adopted the Canadian Institute of Quantity Surveyors' definition of Floor Area which dictates:

1. Measure each floor to the outer face of the external walls;
2. No deductions for openings at stairs, elevators or vertical ducts are made;
3. A deduction is made for a non-service vertical protrusion, e.g., atrium space;
4. Mezzanine floors are generally included;
5. Balconies are excluded; enclosed solariums in residential condominiums are included;
6. Sloping and stepped floors (auditoriums/movie theatres) are measured flat; and,
7. Exclude all external covered walkways

If a **permit is extended or reactivated**, the fee payable for the permit is one-half of the amount required for a new permit for the project, provided no changes have been made or proposed to what was originally approved.

¹ Includes multi-unit Backyard Housing.

² House Wiring Permit Fees are based on the Floor Area of the House.

³ The Electrical Additional Meter Set fee applies to additional meters required for separate entryway addresses but not for individual apartment/condo units that share one entryway. The first meter is included in the Electrical Permit fee.

⁴ If a re-examination of revised plans involves an increase in:

- construction value of more than \$25,000, or
- total floor area of the project,

then permit fees will be adjusted according to the prevailing fee schedule.

⁵ City of Edmonton - EPCOR Water Services Bylaw 19626.

⁶ Subject to GST. Periodic reviews of fees may identify adjustments to ensure compliance with CRA regulations.

⁷ Business hours are 8:00 AM - 4:30 PM on weekdays. Inspections requested outside of that time (evenings, weekends, and statutory holidays) are subject to the charges listed.

⁸ Festivals and Special Events are charged standard commercial and trade minimum fees which include permit review, permit issue and up to an hour on-site inspection. Each additional half hour or part thereof when inspection occurs are charged at the rate listed.

SECTION 4: Residential Permit Fees

Background Information

<i>This Section</i>	This section of the Planning and Development Fee Schedule consolidates fees that are relevant for residential uses. Fees included in this section may be previously stated above.
<i>Why Permits?</i>	Permits are here for your protection. They are the result of years of experience, testing and feedback. Having the proper permits ensures that what is being built is safe and aligns with the appearance and use of your neighborhood.
<i>What Permits are Required?</i>	If you are proposing new development, renovating existing development, or changing the use of a current building, you may require permits from the City of Edmonton. Depending on the type of construction, you may need to apply for different types of permits. Some of the permits that may be required are:
<i>Development Permit</i>	<p>A development permit ensures that the location, size and use of a building comply with the Zoning Bylaw 20001. Development permits and approvals need to be obtained for new construction, renovations, and changes to how a building is being used. All properties within the City of Edmonton are zoned and that zoning determines what type of building and what use is allowed. To determine the development regulations for your property, find your property's zone at maps.edmonton.ca. Then look up your zone and other applicable regulations in Zoning Bylaw 20001.</p> <p>Development permits are either Permitted Developments or Discretionary Developments.</p> <p>Permitted Development: Permitted Use and comply with all of the regulations of the Zoning Bylaw.</p> <p>Discretionary Development: Discretionary Use or require a variance to one or more the regulations in the Zoning Bylaw. If the development is a Discretionary Development, notification of the application to the surrounding properties is required.</p>
<i>Building Permit</i>	While development permits regulate the location, size and use of buildings on your property, building permits are intended to ensure that the work to be done on your property meets the minimum requirements of the Building Code. Most projects require both a development and a building permit.
<i>Mechanical and Electrical Permits</i>	<p>Mechanical permits regulate the utilities servicing a property. This includes the water and sewer lines, interior plumbing, gas, heating, ventilation, air conditioning, and electricity. If any construction includes mechanical work, separate permits may be required and are applied for separately. Separate permits are issued for each type of mechanical work that is being completed. This includes HVAC, Plumbing, Gas, and Electrical.</p> <p>Every building, mechanical and electrical permit requires payment of a safety code fee, which is collected on behalf of the Safety Codes Council. The safety code fee is calculated as 4% of the total permit cost with a minimum of \$4.50 and a maximum of \$560.</p>
<i>Additional Information</i>	This document is not a complete list of the permits and fees that may be required. Additional permits and licences are issued by the City of Edmonton including: parking permits, pet licences, and business licences. For the complete fee listings, application forms and additional information visit www.edmonton.ca .

Renovations and Additions to Existing Homes

¹ **Total Permit Fee** excludes any applicable Variance or Off-premise advertising supplements.

Application Type	Explanation	Development Permit Application Fee	Building Permit Fee	Safety Codes Fee	Total Permit Fee ¹
Accessory building	Any building or structure other than the primary residence or backyard housing. Examples: detached garages, detached carport, gazebos, sheds, greenhouses, pergolas, playground structure, lean to, etc.	\$145	\$120	\$4.80 (or 4% of Building Permit Fee)	\$269.80
Exterior alterations with NO increase in floor area or height (single detached, duplex, semi-detached, or backyard housing); Site alterations	Minor exterior alterations that do not increase the size of the house. Examples : installing a skylight, replacing a window - Note: When a window or door is being replaced, permits are only required if the replacement is larger than the original or closer to the property line.	\$195	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	Min: \$319.80
Fireplace	The installation of a gas or solid fuel burning appliance (wood, pellet or coal burning fireplace or stove). * If a new fireplace chassis is being constructed on the outside of a house a development permit is also required. - A gas fireplace will also require a gas permit and may require an electrical permit for the electrical switches. - An electric fireplace will require an electrical permit.	\$195	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	Min: \$124.80 or Min: \$319.80 (If development permit required)
Home addition to mobile homes	Any construction added to the primary building that has a roof or has a structural design that could hold a roof is considered to be an addition.	\$195	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	Min: \$319.80
Home addition with NO increase in floor area or height (single detached, duplex, semi-detached, or backyard housing)	Any construction added to the primary building that has a roof or has a structural design that could hold a roof is considered to be an addition.	\$195	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	Min: \$319.80

<p>Exterior alterations to existing multi-unit housing or row housing (up to 4 units), including vehicle access; Home addition to single detached, duplex, or semi-detached housing with increase in floor area or height; Secondary suites.</p>	<p>Any construction added to the primary building that has a roof or has a structural design that could hold a roof is considered an addition. Examples: sunroom, covered deck, attached garage, veranda, new bay window that increases floor area</p>	\$415	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	\$539.80
<p>Hot tub, swimming pool, ponds</p>	<p>A man-made body of water deeper than 2 feet. Both a development permit and building permit are required for permanent swimming pools deeper than 2 feet. - This also includes hot tubs and ponds with a body of water deeper than 2 feet. - Temporary pools (i.e. set up during the summer months only) require building permit review when sized to hold water more than 2 feet in depth. - Swimming pools require building permits for both the initial installation and the removal of an existing pool.</p>	\$145	\$120	\$4.80 (or 4% of Building Permit Fee)	Min: \$269.80
<p>Interior Alterations</p>	<p>Changes or alterations that affect the building structure or matters affecting health and safety will require a building permit. If interior alterations are under \$5,000 and do NOT include construction involving the structural or bearing walls e.g., opening a doorway in a non-load-bearing partition between 2 rooms would not require a building permit; partitioning a room to create two rooms of which at least one is a sleeping room does require building permit review as the work may affect health and safety of the occupants. - If renovations include mechanical or electrical work, separate permits may be required. - A development permit is not required UNLESS the renovation is being done for the operation of a business, or to be used as a secondary suite. - If the floor space is increasing it is considered a Home Addition.</p>	N/A	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	Min: \$124.80

Overheight fence	A fence, wall or gate that is greater than 1.3 metres in front yards or 2.0 metres in all other yards. On corner sites, a fence is greater than 1.3 metres on the flanking side of the property between the house and the property line where vehicle access is from the flanking side.	\$195	N/A	N/A	\$195
Residential Demolition	A development and building permit is required to demolish a building and ensure that conditions are safe when the demolition is complete. - If the building is being moved, a demolition permit is required. - If applying to demolish and then build a new structure, only a building permit is required for the demolition (in addition to all required permits for the new structure).	\$105	\$120	\$4.80 (or 4% of Building Permit Fee)	\$229.80
Recreational Vehicle Parking	Recreational Vehicle (RV) means a motorized or non-motorized vehicle or structure designed for recreation and travel purposes. A development permit is required to park an RV in a front yard or in a flanking side yard of a residential property between November 1 and March 31. Typical RV examples include motor homes, travel trailers, fifth wheels, truck campers, tent trailers, park model trailers, camper van conversions, small utility trailers, boats, snowmobiles, all-terrain vehicles, jet skis, or motorcycles and trailers to carry them.	\$195	N/A	N/A	\$195
Satellite Dish	A Satellite Signal Receiving Antenna is an antenna used for the purpose of receiving television and radio broadcasts transmitted by satellite. If the satellite dish is attached to a building it will also require a building permit. - No permits are required for small (pizza sized) satellite dishes (under 1 metre in diameter).	\$195	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	Min: \$319.80
Secondary Suite	A development consisting of a dwelling located within, and accessory to, a single detached house, semi-detached house, row house or backyard house . A secondary suite has cooking, food preparation, sleeping, and sanitary facilities which are physically separate from those of the principal dwelling. Mechanical permits are not included in these fees. If construction involves any plumbing, gas, heating, ventilation, or electrical work, see Mechanical and Electrical Permit section for applicable fees.	\$415	Min. \$120 (Based on Construction Value - See Appendix A)	\$4.80 (or 4% of Building Permit Fee)	Min: \$539.80

<p>Uncovered Deck</p>	<p>A deck (or wheelchair ramp) that has no roof or walls may require a development permit, a building permit or both. - If a hot tub is being installed in the uncovered deck during the construction of the deck, the hot tub and uncovered deck are treated as one application and are processed together. Only the uncovered deck fee is required. - If the deck has a roof or walls it is considered a home addition.</p>	<p>\$145</p>	<p>\$120</p>	<p>\$4.80 (or 4% of Building Permit Fee)</p>	<p>Min: \$269.80</p>

Additional Fees

Application Type	Explanation	Fee
Administrative	Where circulation has not commenced, a non-refundable administrative fee or 20% of the development permit fee (whichever is greater) will be retained for administration costs. Where circulation has commenced or if a decision has been made, there will be no refund of the fees paid.	\$120
Development existing without a required Development Permit and Building Permit	When a building or structure has been constructed in the past without the applicable permits it is said to be existing without permits. Additional charges may apply when permits are obtained after the structure is built.	Double regular application fee may apply
Leave As Built	A Leave as Built permit must be obtained when a structure has been built with the proper permits, but the structure was not built in accordance with the approved plans or the zoning regulations.	Accessory Buildings and Additions: \$145 Single Detached, Semi-detached, Duplex: \$195
Minor Amendments	Any amendments that are made to an application after it has been issued will be charged an additional fee. - Major amendments to applications are treated similar to an application resubmission and require payment of the regular permit fees.	Minor Residential Applications: \$120 Single Detached, Semi-detached, Duplex and Multi-unit Housing up to 4 Units (this includes re-examination of Plan Fee) Applications: \$195
Re-circulation	Any application that requires more than two circulations to other City departments will be charged an additional fee equal to 50% of the original permit fee.	50% original permit fee
Re-inspection	An additional fee will be charged for every re-inspection required as a result of the following: - No address on site, building or suite as applicable; - Inspector unable to access the building after having been requested to inspect; - Project not ready for inspection after a request for inspection has been made; - Previously identified deficiency has not been corrected after a request for inspection has been made.	\$285

Mechanical and Electrical Permits

Application Type	Explanation	Permit Fee	Safety Codes Fee	Total Fee
Heating, Ventilation and Air Condition Permit	An HVAC permit is required for any renovations or new construction that involves any heating, ventilation or air conditioning work. - Examples: furnace replacement; new HVAC system.	\$120 per unit Renovations : \$0.60 /per \$1000 CV	\$4.80 (or 4% of Building Permit Fee)	Varies
Gas Permit	A gas permit is required for any renovations or new construction that involves any gas work. - Examples: gas or gas line installation, conversion of a non-gas barbeque to a gas burning barbeque, installation of a gas fireplace.	\$120	\$4.80 (or 4% of Building Permit Fee)	\$124.80
