BUILDING GREAT NEIGHBOURHOODS

Starting in 2020, your neighbourhood will see the replacement of its aging collector and local roadway surfaces, street lights, and sidewalks as part of the City of Edmonton’s Neighbourhood Renewal program for mature neighbourhoods. Planning for this renewal has just begun. The City of Edmonton Building Great Neighbourhoods team will explore the redevelopment of City-owned areas within the community, including green spaces and parks. We will look for opportunities and funding to make desired upgrades and enhancements in coordination with the Neighbourhood Renewal program.

Get Involved!
This is your city and your neighbourhood. We want to understand how you experience your neighbourhood and ask for your input on what we might do to make it better.

We will engage and work with you on the renewal of roads, sidewalks, streetlights, and park spaces, and promote other community opportunities to enhance how people live and interact in your neighbourhood.

We commit to being open and transparent about how your input is used. Let’s make the most out of your neighbourhood.
DRAFT CONCEPT DESIGNS EVENT

Welcome to the Draft Concept Designs Public Event

As a follow-up to the Vision Confirmation and Community Options event held in February 2019, we would like to share our draft concept designs with you for improvements in your neighbourhood for your feedback. These concept designs include:

- upgrades to parks and open space
- walkability enhancements
- traffic safety improvements

Your feedback will be used to REFINE the concepts and help us to develop the best designs for your neighbourhood to better meet your needs.

We will also be sharing information on the local improvement process for decorative street lights and sidewalk reconstruction and gathering input on the construction of neighbourhood renewal.

How to Participate

The following panels include the draft concept designs, as well as a summary for each including:

- what we heard at past events
- what we are considering for improvements
- what we want you to think about when leaving feedback

Please use the sticky notes and dot stickers to respond to the questions (leave feedback), by placing them directly on the panels.

Decision-Making Process

It is important to note, that your feedback will be one of the considerations when refining the draft concepts. We will also look at City policies and programs, technical requirements, and funding to determine how the concepts will be developed.
VISION AND GUIDING PRINCIPLES

At the February 2019 event we presented the draft vision statement and guiding principles and asked you to confirm them for us to make sure we got them right.

The Vision Statement for Lorelei and Beaumaris is:

Lorelei and Beaumaris are family-friendly neighbourhoods that welcome people of all ages and backgrounds. We are a safe and walkable community that is connected to key destinations like parks, schools and commercial areas. We are an active and vibrant community that enjoys nature and getting together with our neighbours.

What We Heard: We heard that residents thought that the draft vision sounds good. We also learned that, for residents, connectivity includes driving which is supported through a vision for a safe neighbourhood and further reinforced in the guiding principles.

What We Did: We maintained the vision statement keeping in mind connectivity includes all the ways people move around.

The Guiding Principles for Lorelei and Beaumaris are:

What We Heard:
We heard that all of the principles were important to at least some participants, however some are more important than others.

What We Did:
1. We removed the two least important principles, so that we can focus on what is most important to residents. The two principles that we removed are:
   - Creating year round opportunities to be active throughout the community
   - Reflecting on the history and character of the neighbourhood
2. We merged the following two principles into one, as they are quite similar:
   - Having viable options to walk, bike and drive
   - Improving the connectivity to other neighbourhoods and nearby amenities.
1. GREEN CORRIDOR – EAST

Concept Design Location

Existing Condition

Utility Corridor

97 Street

Concept Design

1. Shared-use Path
2. Lighting
3. Seating
4. Waste Receptacles
5. Wayfinding Signage
6. Off-Leash Fenced Dog Park
7. New Planting
8. Crosswalk

Concepts are subject to approvals and funding.
1. GREEN CORRIDOR – EAST

<table>

Proposed Construction
Staging 2019/2020
Construction Staging
• Ultimate staging is dependent on weather conditions, coordination with utilities, and unforeseen design and construction issues
• Construction Activities around schools are scheduled during the summer months to create minimal disturbance for students

Construction Lay Down area
• During construction, the contractor will have a lay down area that will be used to house a site trailer and to store equipment and materials
• Typically, the area is surrounded by a fence to maintain an aesthetic and safe area
• The lay down area will be restored at the end of construction

Please note that traffic calming may include elements such as curb extensions, raised crosswalks and flashing lights.
WHICH ENHANCEMENTS ARE MOST IMPORTANT?

Some of the draft concept designs presented before you today will be selected to be further developed and ultimately built. We want to determine which concepts are most important to
the neighbourhood. Please note that public input will be one factor when determining which concepts move forward, along with technical considerations, policy documents and funding.

Please use five stickers and place them next to the concepts that are most important to you.

1. GREEN CORRIDOR - EAST

What is the concept addressing? Makes the green corridor more inviting to residents by providing pedestrian amenities such as a shared use path, lighting, and waste receptacles. Also introduces an off-leash dog park. As a result, the design of the trail may change depending on the final out of Concept #9.

2. GREEN CORRIDOR – WEST

What is the concept addressing? Makes the green corridor more inviting to residents by providing pedestrian amenities such as a shared use path, lighting, and waste receptacles, and addresses the missing connection to the rest of the active modes network.

3. LORELEI PARK

What is the concept addressing? Makes Lorelei Park more inviting by providing additional pedestrian amenities, upgrades to the playground, and a new multi-use space. Also surrounded by a fence to maintain an aesthetic and safe area.

4. LORELEI PARK CONNECTION

What is the concept addressing? Improves the pedestrian connection to Lorelei Park. Also provides a plaza space which acts as a gateway to the park square, and includes pedestrian safety and crossing improvements to slow down speeders and make it safer to walk.

5. BEAUMARIS GATEWAY DESIGN

What is the concept addressing? Slows down traffic entering the community off the main arterial streets, and provides signage to commemorate the heritage/history of the neighborhood.

6. BEAUMARIS LAKE CONNECTION

What is the concept addressing? Improves the pedestrian connection to Beaumaris Lake, and provides a beautiful view of the lake and surrounding bike network.

7. BEAUMARIS ROAD COMMERCIAL HUB

What is the concept addressing? Slows down traffic entering the neighborhood, provides wayfinding, and creates a sense of place.

8. 164 AVENUE COMMERCIAL HUB

What is the concept addressing? Improves the pedestrian connection to Beaumaris Lake, and provides a beautiful view of the lake and surrounding bike network.

9. 97 STREET SHARED-USE PATH CONNECTION

What is the concept addressing? Provides a north to south connection along the east edge of the neighborhood to improve regional connectivity, and provides a place for people to access the proposed green corridor connection as well as surrounding destinations.

10. CASTLE DOWNS ROAD TO BEAUMARIS LAKE CONNECTION

What is the concept addressing? Improves accessibility to Beaumaris Park, and includes crossing improvements to slow down speeders, make it safer for pedestrians, provide safety features, and access entrances to the park.

11. BEAUMARIS PARK CONNECTIONS
POTENTIAL NEW SIDEWALKS AND CONNECTIONS

The following map identifies the location of missing sidewalk linkages that are being considered for new sidewalks.

We want you to think about...
- how people of all ages and abilities will use the space year round today and in the future
- how people will be getting to key destinations in the neighbourhood
- the relationship with nearby properties and the street
- some trees and landscaping may need to be removed in order to make room for sidewalks
- roads may be too narrow to fit new sidewalks
- new sidewalks will need to be maintained (cleared of snow and ice) by nearby property owners as per the current Snow and Ice Policy

Share your feedback about the potential new sidewalks identified in the map, including why or why not it should be built. Please share the location of the sidewalk when providing your feedback.
CONSTRUCTION

What does the city need to consider or be aware of during construction? Do you have any questions about construction?

Please use a sticky note to share your comments/questions.
NEXT STEPS

The next steps for renewal in Lorelei and Beaumaris will include finalizing the Draft Concept Designs and developing them into Preliminary Designs over the summer. We will bring these designs back to you in Fall 2019 to gather your final thoughts and to share an update on the local improvement process for decorative street lights. We will meet with you again in Early 2020 to share information about the neighbourhood renewal construction process in Lorelei and make a decision on sidewalk reconstruction, before construction commences in late Spring/early Summer 2020.

The future opportunities to engage include:

- Preliminary Designs Public Event – Fall 2019
- Lorelei Pre-Construction Public Event – Early 2020
- Beaumaris Pre-Construction Public Event – Early 2021

Thank you for your input!

For more information on neighbourhood renewal including future opportunities to engage, and to sign up for our email subscriber list, please visit: edmonton.ca/BuildingLoreleiBeaumaris
