

ETS Park & Ride Report – Summer 2017

by Monitoring & Geospatial Services

Urban Form And Corporate Strategic Development | City Planning
City of Edmonton

August, 2017

Introduction

There are a total of 9 ETS Park & Ride locations throughout the City of Edmonton.

Edmonton Transit System (ETS) operates a total of nine Park & Ride sites throughout the City of Edmonton. There are five sites adjacent to LRT Transit Centre's: Clareview (East and West), Belvedere, Stadium and Century Park. There are three sites adjacent to Bus Transit Centre's: Meadows, Lewis Farms and Eaux Claires. The remaining standalone site is the Davies City Lot.

ETS Park & Ride Surveys are conducted three times a year: Spring, Summer and Fall.

Monitoring & Geospatial Services monitors the utilization of all the Park & Ride sites between the hours of 6:00 AM and 11:00 AM during three different time periods in a year; Spring, Summer and Fall. The Summer 2017 Park & Ride Survey was conducted in August, 2017, when universities and schools are both out of session.

Key Findings

- **66%** of all available parking is occupied at the sites adjacent to both LRT and Bus Transit Centre's by 11:00AM.
- **73%** of all available parking is occupied at the sites adjacent to LRT Transit Centre's by 11:00 AM.
- **45%** of all available parking is occupied at the sites adjacent to Bus Transit Centre's by 11:00 AM.
- **51%** of all available parking spaces dedicated for the Paid Park & Ride Program are occupied by 11:00 AM.

ETS Park & Ride Lot Capacity

ETS now offers a total of 5,544 available parking spaces for access to the transit system by vehicle.

ETS offers a total of 5,544 parking spaces for access to the transit system by vehicle. This figure does not include “Reserved Stalls” which can be the following: loading zone stalls, Kiss & Ride stalls, time-limited parking, taxi stalls, ETS inspector stalls and Transit Centre Kiosk stalls.

A number of changes in capacity have occurred since Summer 2016:

- Century Park decreased due to updates in the configuration of the available parking spaces.
- Clareview decreased due to ongoing construction on the southeast parking lot.

ETS Park & Ride Utilization Statistics

The following charts offer a three-year comparison for eight ETS Park & Ride locations. Since this is the second year monitoring Davies City Lot, there is insufficient data to offer a three-year comparison.

Utilization % = Vehicle Count
/ Park & Ride Capacity

Average Weekday Utilization is determined by dividing the vehicle count at 11:00 AM by the Park & Ride capacity

Paid Park & Ride Program

Paid Park & Ride Capacity:

- Clareview West – 577
- Belvedere – 129
- Stadium – 163
- Century Park – 925

ETS offers customers reserved parking at select Park & Ride locations. Paid Park & Ride stalls are available for transit customers who wish to have reserved monthly parking at selected LRT Stations. The reserved stalls in these parking lots are available to paid transit customers on a first-come, first-served basis. Paid transit customers will be guaranteed parking but will not be given a dedicated parking stall. At the time of the Summer 2017 Park & Ride Survey, the total numbers of observed stalls reserved for the paid Park & Ride users were 1794.

Methodology

The number of vehicles parked in the five LRT Park & Ride sites, three Bus Transit Centre Park & Ride sites and Davies City Lot are counted three times a year on two consecutive days: a Wednesday and a Thursday. The timing of the surveys capture three different levels of demand for Transit:

- The fall count is conducted between September 1 and November 30. This period represents a high demand season as post-secondary institutions and schools are both in session and most people are at work.
- The spring count is conducted between mid-April and June 30. This period represents a moderate demand season as post-secondary institutions are not in full session but schools are in session and most people are working.
- The summer count is conducted between July 1 and August 31. This period represents a low demand as people tend to be on vacation and both post-secondary institutions and schools are not in session.

Utilization surveys are conducted on Wednesdays and Thursdays to capture the different usage patterns for the University of Alberta lecture hours (Monday/Wednesday/Friday and Tuesday/Thursday).

The vehicles in each site are counted each hour starting at approximately 6:00, 7:00, 8:00, 9:00 and 10:00.

The capacity of each Park & Ride site is a reflection of the number of parking spaces available on the day of the survey. The totals for parking spaces used and capacity do not include reserved spaces for Transit, Taxis, Kiosk, loading zones, time-limited parking and Kiss & Ride.

DISCLAIMER

The Monitoring Services team makes an extensive effort to assure the quality of information contained in this report is correct. Transit usage can vary by 10 percent or more from one day to the other or by season to season. Our team tries to minimize the variations by conducting surveys around the same time of the year. Year to Year variation may be due to random events such as weather, accidents or unforeseen events affecting service delivery. It is impossible to achieve complete accuracy and consistency in the reported data.

We recommend looking at trends, since variation that is consistent over a longer period is more likely to be real and not just the result of random events. Consideration and appropriate weighting of other sources is to be encouraged before making decisions.
