

Building Great Neighbourhoods

AVONMORE

We are here today to...

- **Explain** how the City is investing in improving your neighbourhood and how your neighbourhood will be improved to meet current City standards.
- **Show** you the preliminary road designs for your neighbourhood, including streetlight placement.
- **Ask** you to provide local knowledge in reviewing the design.
- **Highlight** the local improvement process and how it works.

Building Great Neighbourhoods

Building Great Neighbourhoods is a City initiative that coordinates three infrastructure investment programs to renew and improve Edmonton neighbourhoods.

| Building Great Neighbourhoods | | |
|--|----------------------------------|--|
| Drainage Neighbourhood Renewal Program | Neighbourhood Renewal Program | Great Neighbourhoods Capital Program |

In your neighbourhood

The City of Edmonton is:

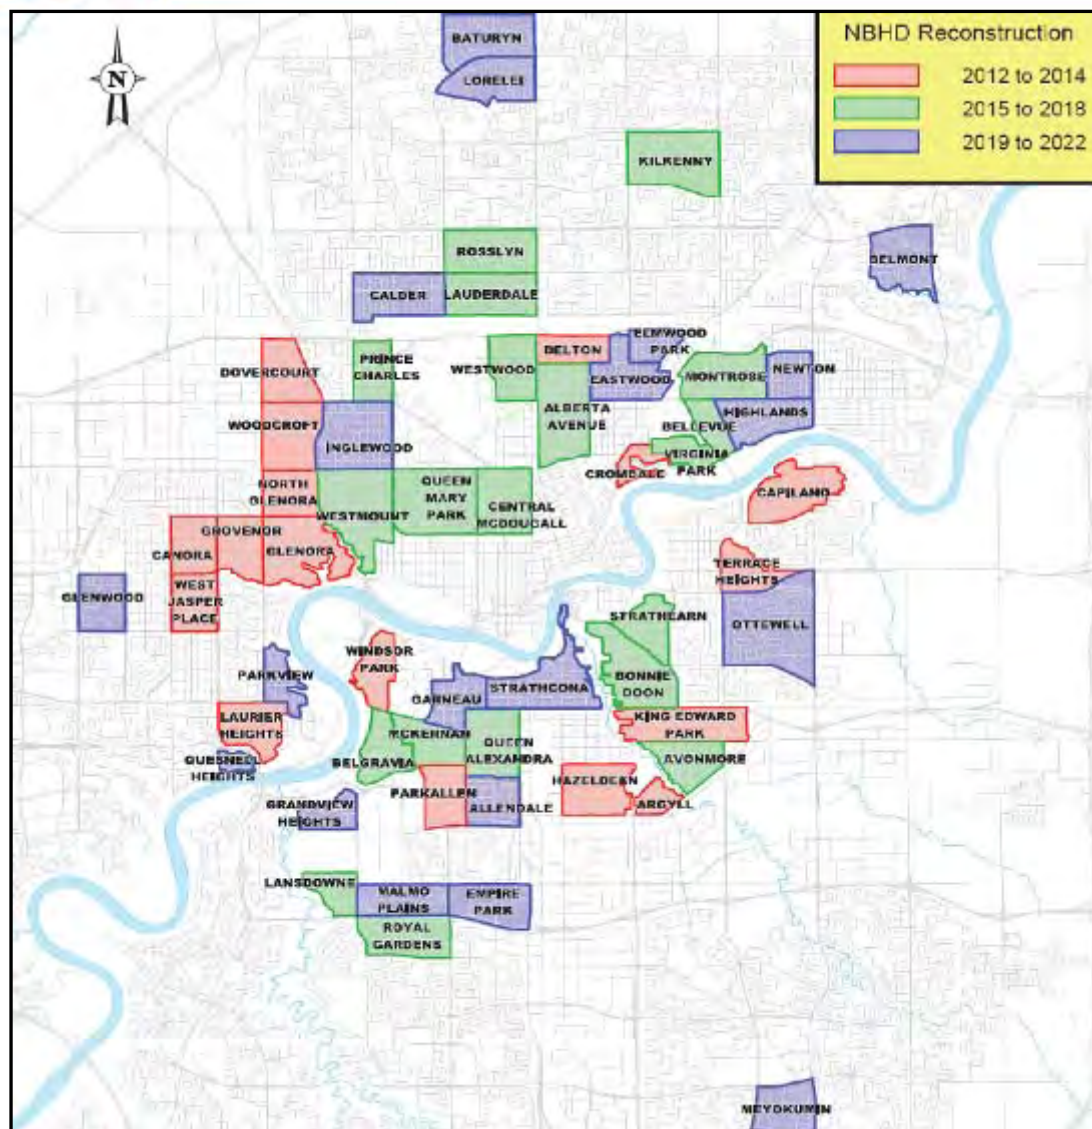

- Renewing and replacing sewers.
- Co-ordinating utility repairs (EPCOR and ATCO).
- Reconstructing roads, curbs and sidewalks on City-owned property.
- Replacing streetlights.
- Working with residents to improve pedestrian and cycling accessibility.
- Adding to your neighbourhood's livability.

A unique program

- BGN is a long-term, planned, integrated approach to improve and replace essential infrastructure in Edmonton's mature neighbourhoods.
- This advances several long-term City goals:
 - Improve Edmonton's livability.
 - Promote active transportation (walking and cycling).
 - Preserve and sustain the environment.

Neighbourhood Reconstructions

| | |
|-----------------|-----------|
| 2011-14: | 17 |
| 2015-18: | 20 |
| <u>2019-22:</u> | <u>20</u> |
| Total: | 57 |

Road Reconstruction

BEFORE

AFTER

AVONMORE

Meeting 1 - Concept *with Community League*

Discussion:

- Any community-led projects, initiatives or suggestions that could be opportunities for neighbourhood capital investments to improve livability.
- An overview of the Local Improvement process for sidewalks and decorative street lighting and the role of the Community League.
- Drainage has initiated the inspection and renewal of the sewer system.

Meeting 2 (TODAY) - Design

Designs informed by:

- Conversation with the community league.
- Our walk through the neighbourhood.
- City design standards and policies.

Feedback

We ask that you look at these designs and use your knowledge of the neighbourhood to advise us if there are missing design elements such as:

- sidewalk links
- bicycle facilities
- traffic signs
- other suggestions to enhance livability

This will help us with our final design.

Meeting 3 – construction plans & local improvement information

Following the design meeting, comments are incorporated if appropriate and the design is finalized. The final plan is presented to the community and the local improvement process is described in more detail.

AVONMORE DRAINAGE NEIGHBOURHOOD RENEWAL

Drainage Neighbourhood Renewal

Drainage Services has been in your neighbourhood renewing and replacing storm and sanitary sewers.

- **Relining:** involves 'cured in-place' pipe material, resulting in minimal disruption to pavement.
- **Open cut:** requires significant disruption to pavement.

Drainage Neighbourhood Renewal

AVONMORE

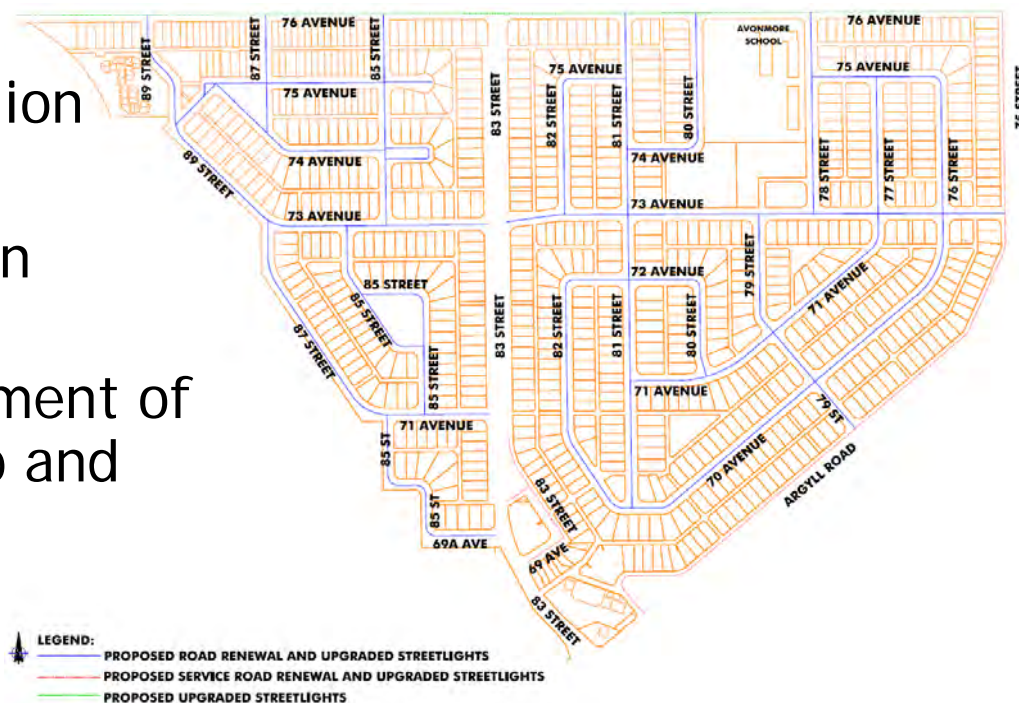

A map showing the locations of drainage work in your neighbourhood will be on display for you to look at following the presentation.

AVONMORE NEIGHBOURHOOD RENEWAL PROGRAM

Condition & Reconstruction Scope

- Age: 50+ years
- Pavement: poor condition
- Sidewalk: fair-poor condition
- Curb: very poor condition
- Surface works - \$22 million (conceptual)
- Cost includes the replacement of pavement/sidewalks/curb and gutter, and upgrading streetlights in the entire neighbourhood
- does NOT include alleys or arterial roadways (75 St or Argyll Road)

Design considerations

Active Modes

- Addressing accessibility issues by providing new sidewalk/trail connections

Intersections

- Adding curb ramps, improving curb radius, and improving the overall operation

Design considerations

Road Width

- If necessary, roads will be resized to improve functionality

Curb Type

- Roll face curb
- Straight face curb

Active transportation

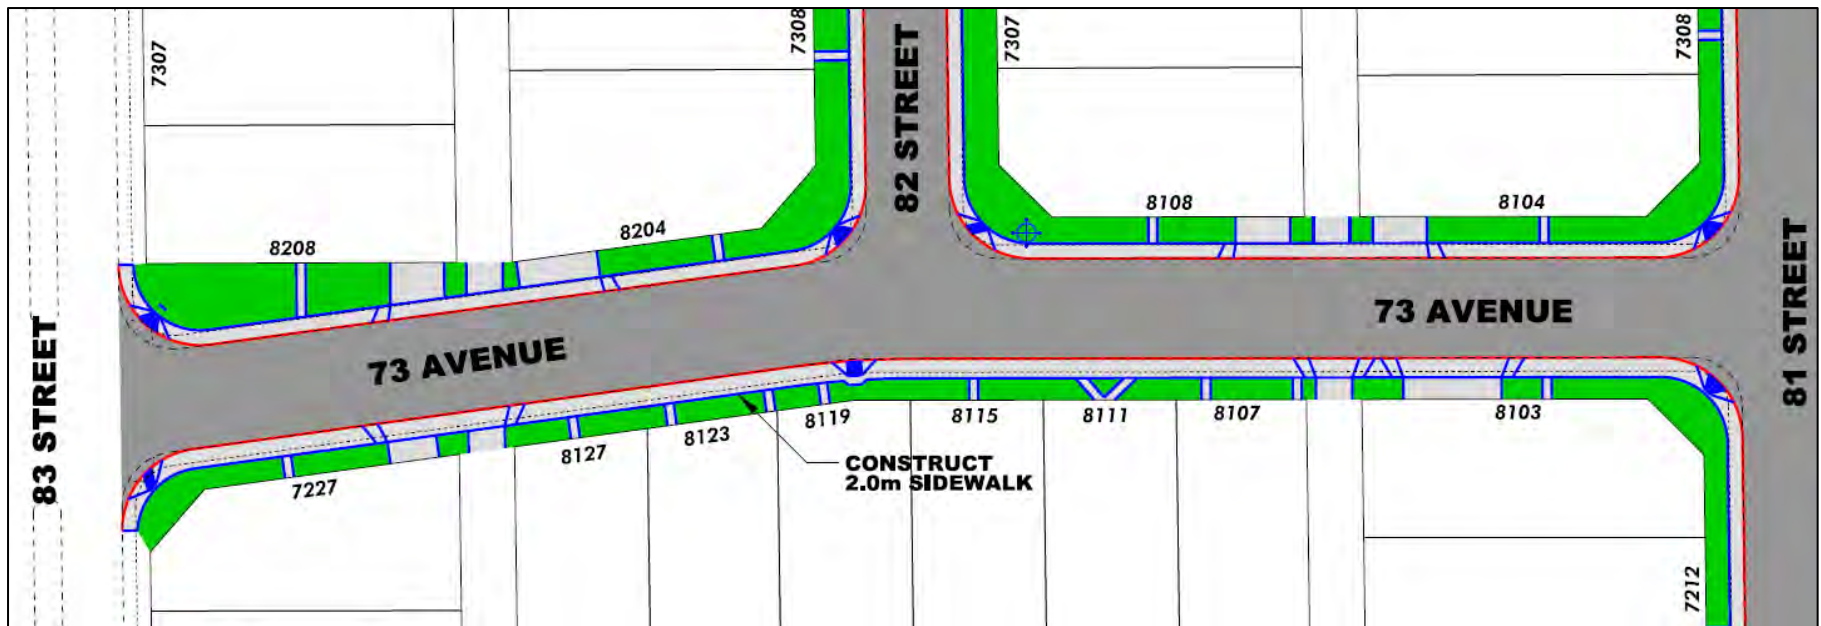

Improve infrastructure

- **Sidewalks:** In residential neighbourhoods, ensure accessibility to all bus stops and provide a sidewalk on at least one side of the street.
- **Bicycle routes:** Review the Bicycle Transportation Plan to implement bike lanes, shared-use lanes and shared-use pathways where applicable.

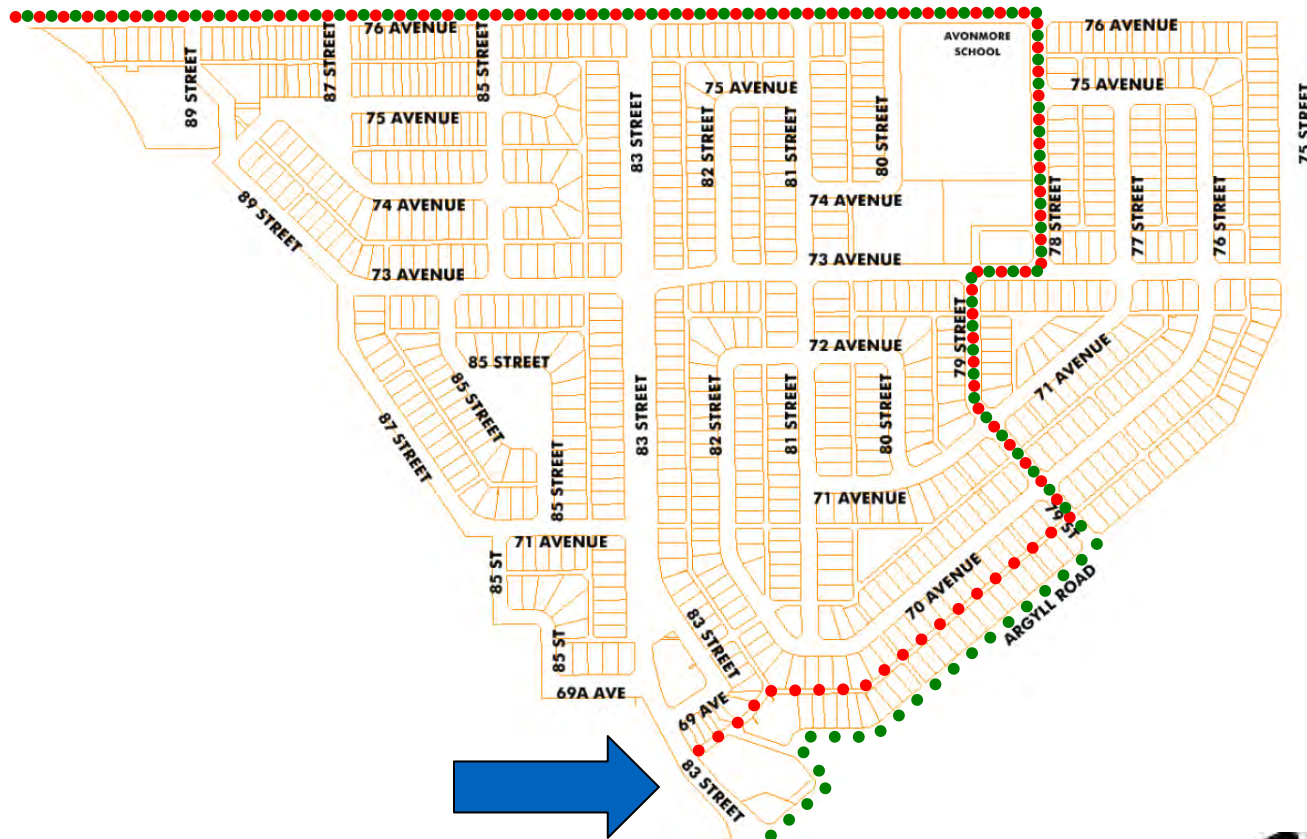

Active transportation

73 Avenue sidewalk widening

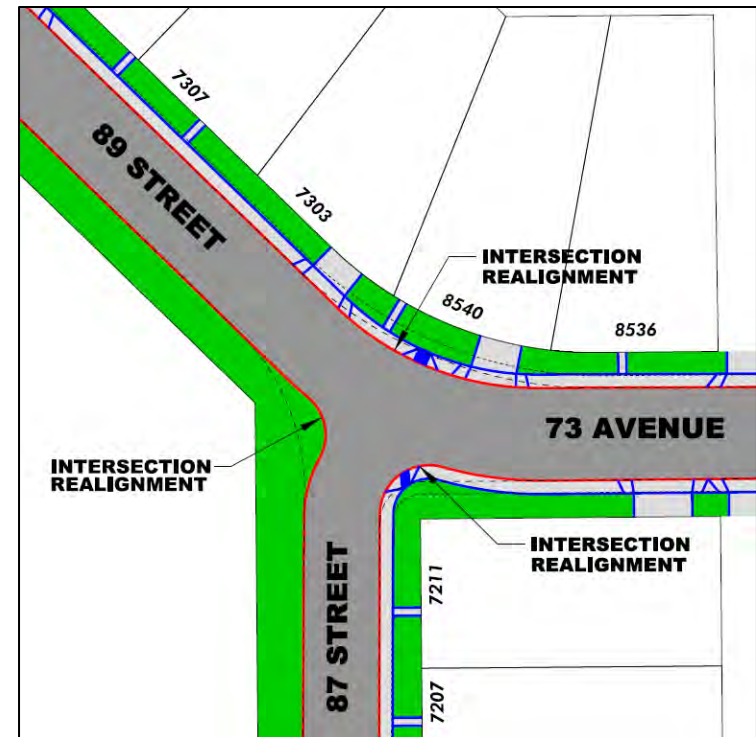

Active transportation

Bicycle route changes

Intersection improvements

Curb return adjustments

Road width changes

79 Street widening

Curb design

Straight face curb

- Collector roadways
- Bus routes
- School areas
- Park areas

Roll faced curb

- Local roadways

Curb design

ROLL FACE MONOWALK

STRAIGHT FACE MONOWALK

ROLL FACE BLVD WALK

STRAIGHT FACE BLVD WALK

Streetlight design standards

Neighbourhood streetlight system

- Upgraded to energy efficient LED lighting, the new City standard for streetlights.

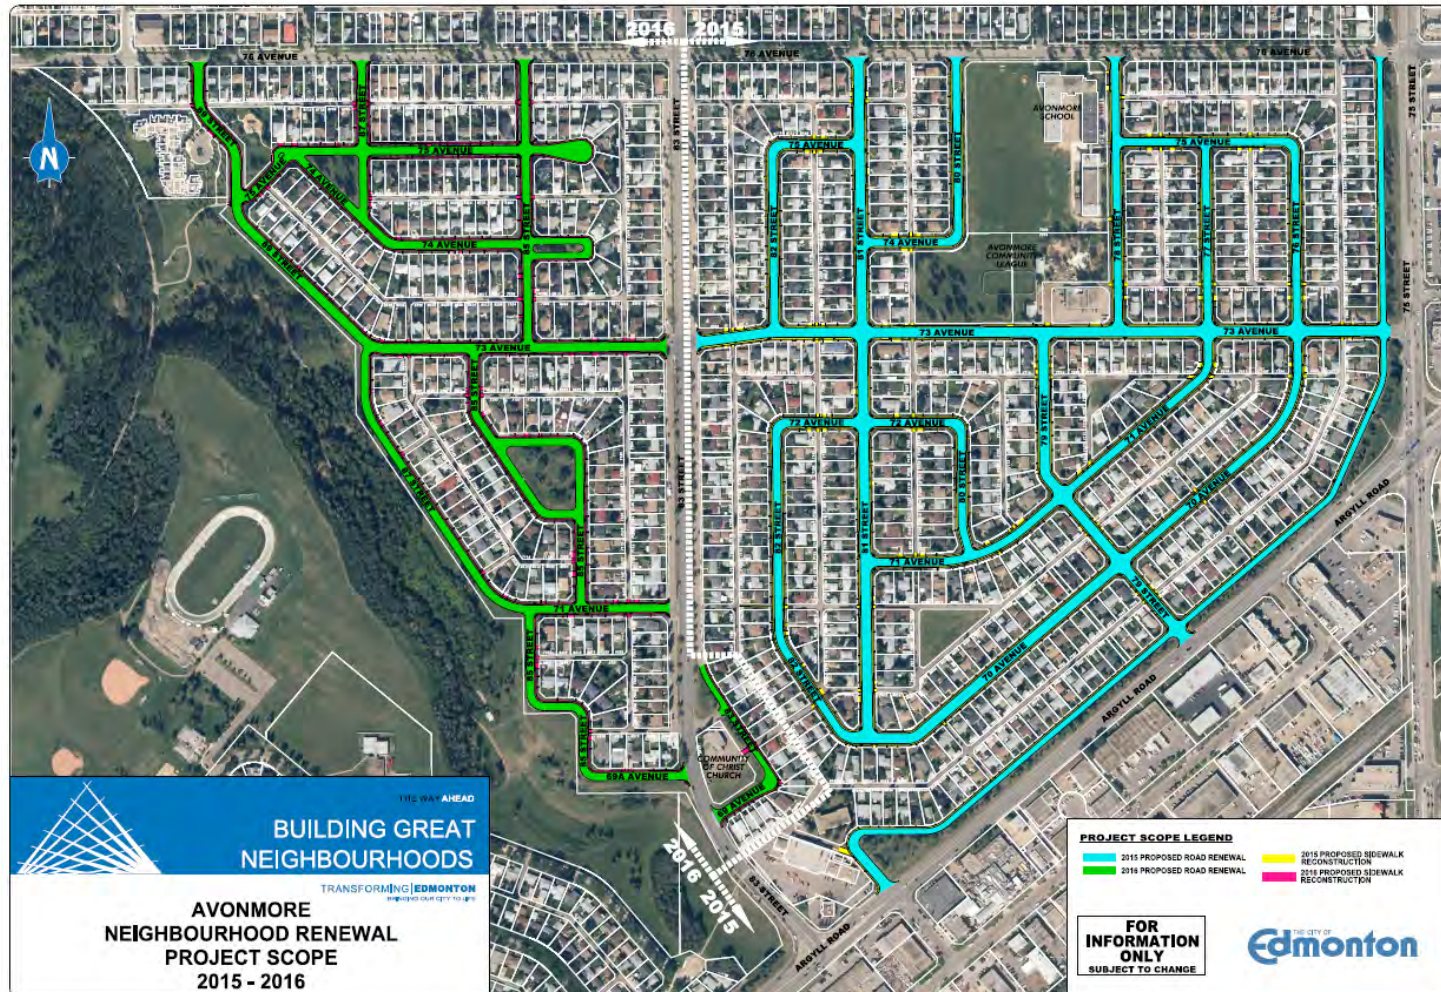

Construction staging

- Staged over two years
(2015-16)
- Ultimate staging dependant on weather conditions, coordination with utilities, and unforeseen design and construction issues.
- To create minimal disturbance for students, construction activities around the schools will be scheduled during the summer months.

Construction staging

LOCAL IMPROVEMENTS

Local improvements

Two types involved with neighbourhood reconstruction:

City initiated

- City proposes improvement and advises property owners of improvement and projected costs.
e.g. Sidewalk reconstruction

Property owner requested

- Property owners propose improvement through an Expression of Interest (EOI) and gather support for it.
e.g. Decorative streetlights

Sidewalk reconstruction

- City and property owner share costs (50/50) of sidewalk reconstruction adjacent to the owner's property.
- 2014 Residential Local Improvement rates are about \$198.28/m of lot frontage.

Sidewalk reconstruction

- A typical 15.24m (50 ft.) frontage would be:
 - \$3,021.79 one-time cash payment to the City.
 - \$235.31/year for 20 years amortized on your property taxes.

Sidewalk reconstruction

- Done by project area.
- Map of project area provided with Local Improvement Notice.
- If 51% of property owners in any given project area petition against the local improvement, it is defeated.

Sidewalk reconstruction

Sidewalk Reconstruction

Sidewalk Maintenance

Decorative street lighting

Property owner requested local improvement:

- Type selected by [July 1, 2014](#); otherwise standard LED streetlights only.
- City presents an Expression of Interest (E.O.I.) package to community on [Sept 1, 2014](#).
- Signed petition to be received by City by [Nov 15, 2014](#).
- Must have 51% support from the neighbourhood property owners to agree to pay the additional costs for decorative lighting beyond standard streetlights.

AVONMORE GREAT NEIGHBOURHOODS CAPITAL PROGRAM

Great Neighbourhoods Capital Program

This program makes improvements on City property in residential neighbourhoods. These investments:

- Focus on enhancing neighbourhood livability and community connectivity.
- Are unique to each neighbourhood.
- Are coordinated with work planned in the neighbourhood to maximize investments.

AVONMORE

As you are looking at the displays, we would like to hear your suggestions around pedestrian and cycling access, traffic access or opportunities to improve the livability of your neighbourhood.

NEXT STEPS

What to expect

- Local Improvement notices will be sent out early next year.
- Deadline to select a decorative lighting option and send request to the City is **July 1, 2014**.
- Drainage renewal work is currently underway.
- Road, curb and sidewalk construction starts in spring 2015.
- Anticipated completion date is fall 2016.

In early 2015 another public meeting will be held to inform you of:

- Final designs
- Construction and Local Improvement process

Residents will get information at their homes throughout the construction process about what is happening when and what is required of residents.

THANK YOU!
