

Elder Abuse Consultation Team

Are you a professional in the Edmonton area who suspects an older adult is experiencing abuse and you don't know who to turn to for direction, information or support?

The Elder Abuse Consultation Team can help. We are a collaborative network of professionals who work to ensure older adults who are experiencing abuse, or are at risk of abuse, receive informed, appropriate services and support from professionals and community agencies. We meet monthly for case consultation, to share expertise and to facilitate problem solving.
